A Bill

HOUSE BILL 1658

By: Representatives J. Mayberry, Tosh

For An Act To Be Entitled

AN ACT TO CREATE THE TASK FORCE ON ALPHA-GAL; AND FOR
OTHER PURPOSES.

Subtitle

TO CREATE THE TASK FORCE ON ALPHA-GAL.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

SECTION 1. Arkansas Code Title 20, Chapter 15, is amended to add an
additional subchapter to read as follows:

Subchapter 20 – Task Force on Alpha-gal

20-15-2001. Findings – Purpose.

(a) The General Assembly finds:

(1) Alpha-gal allergies are a reaction to galactose-alpha-1, 3-
galactose, where the body is overloaded with immunoglobulin E antibodies on
contact with the galactose carbohydrate;

(2) Bites from the lone star tick, which transfer this
carbohydrate to the victim, have been implicated in the development of this
delayed allergic response which is triggered by the consumption of mammalian
meat products;

(3) Alpha-gal allergies most often occur in the central and
southern states such as Arkansas, where the lone star tick is more prevalent;

(4) A typical allergic reaction to Alpha-gal has a delayed
onset, occurring four to eight (4-8) hours after the consumption of mammalian
meat products, instead of the typical rapid onset with most food allergies;

(5) Since the reaction to eating mammal meat is delayed by

several hours, the proper diagnosis is often missed or misdiagnosed;

(6) People who are affected by Alpha-gal have to be constantly vigilant about the ingredients they consume, because an allergic reaction can be severe and life-threatening; and

(7) As doctors are not required to report the number of patients suffering with Alpha-gal, the true number of affected individuals is unknown.

(b) The purpose of this subchapter is to promote awareness and encourage efforts to treat Alpha-gal in the state.
