(B) A reassignment of positions under subdivision (a)(17)(A) of this section may be approved to redirect internal resources to meet the needs of the cabinet-level department and the services provided.

(C) The secretary of the cabinet-level department shall submit a request for reassignment of positions under subdivision (a)(17)(A) of this section to the office, which shall transmit the request to the Chief Fiscal Officer of the State and the Legislative Council or, if the General Assembly is in regular session, fiscal session, or extraordinary session, the Joint Budget Committee.

(I)(i) Determining the maximum number of employees and the maximum amount of appropriation of general revenue funding for a state agency each fiscal year is the prerogative of the General Assembly and is usually accomplished by delineating the maximums in the appropriation act for a state agency and the general revenue allocations authorized for each fund and fund account by amendment to the Revenue Stabilization Law.

(ii) In light of subdivision (a)(17)(I)(i) of this section, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee or their cochaIRS as provided by this subdivision (a)(17).

(iii) The requirement of approval by the Legislative Council or Joint Budget Committee or their cochaIRS is not a severable part of this subdivision (a)(17). If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of competent jurisdiction, this subdivision (a)(17) is void.

(2) The Office of Personnel Management may approve an adjustment in the classification of a position within the same job series after the secretary of the requesting cabinet-level department or the requesting agency director has demonstrated that the:

(A)(i) Employee has satisfied the eligibility criteria as established by the office.

(ii) The office shall submit the eligibility criteria under subdivision (c)(2)(A)(i) of this section for review by the Legislative Council or, if the General Assembly is in regular session, fiscal session, or extraordinary session, the Joint Budget Committee; and

(B) Employee's satisfactory performance justifies the change in classification.

(3) An adjustment approved under subdivision (c)(2) of this section shall not exceed the highest graded classification designated as career-path within the job series.

(4) The office shall file a report of job series adjustments approved under this subsection (c) with the Legislative Council or, if the

General Assembly is in regular session, fiscal session, or extraordinary session, the Joint Budget Committee, for review at the next regularly scheduled meeting following the approval.

SECTION 6. Arkansas Code § 21-5-209 is amended to read as follows:

21-5-209. Compensation plan.

(a) There is established for state agencies covered by this subchapter a compensation plan for the setting of salaries and salary increases, when deserved, of all employees serving in positions covered by this subchapter.

(b) An employee whose salary falls below the entry pay level for the grade assigned to his or her classification may be adjusted to the entry pay level if approved by the Office of Personnel Management.

~~(b)(1)(c)(1)~~ No employee shall be paid at a rate of pay higher than the maximum pay level in the grade assigned to his or her class unless otherwise provided for in this subchapter.

(2) However, an employee presently employed in a position who is being paid at a rate in excess of the maximum for his or her assigned grade may continue to receive his or her rate of pay.

~~(e)(d)~~ It is the specific intent of the General Assembly to authorize, in the enactment of the compensation plans, rates of pay for each of the appropriate grades assigned to a class, but it is not the intent that any pay increases shall be automatic or that any employee shall have a claim or a right to pay increases unless the department head of the state agency determines that the employee, by experience, ability, and work performance, is eligible for the increase in pay authorized for the appropriate rate.

~~(d)(e)~~ Pay levels established in this subchapter are for compensation management purposes and are not to be construed as a contract, right, or other expectation of actual employee salary determination.

~~(e)(1)(f)(1)~~ The following grades and pay levels shall be authorized for the ~~General Salaries~~ State Government Services pay table effective July 1, 2024 2025, and thereafter, for the state service for all positions of state agencies covered by this subchapter to which a classification title and ~~General Salaries~~ State Government Services salary grade have been assigned in accordance with this subchapter and the appropriation act of the state agency:

(f) A hard-to-fill or retain differential up to ten percent (10%) may be authorized for a position or classification if:

(1) The state agency has certified the inability to recruit and retain certain employees in a specific geographic area of the state based on

(iii) Subsequent changes to the facility or unit, location, and eligible positions or classifications within the facility or unit on file with the office shall receive prior approval by the Secretary of the Department of Transformation and Shared Services after approval by the Legislative Council or, if the General Assembly is in regular session, fiscal session, or extraordinary session, the Joint Budget Committee.

(h) An employee who is receiving additional compensation for a high-risk position that is physically hazardous or dangerous and then is reassigned to normal duty shall revert on the day of the reassignment to the rate of pay for which he or she is eligible under this subchapter.

(j) If granting additional compensation under this section would have the effect of exceeding the maximum pay level for the grade assigned to the employee's classification, the additional compensation shall not be considered as exceeding the maximum allowable rate for that grade.

(k) The office may adopt policies establishing the percentage increments that are available for each compensation differential.

(l)(1) Determining the maximum number of employees, the maximum compensation of employees, and the maximum amount of appropriation of general revenue funding for a state agency each fiscal year is the prerogative of the General Assembly and is usually accomplished by delineating the maximums in the appropriation act for a state agency and the general revenue allocations authorized for each fund and fund account by amendment to the Revenue Stabilization Law.

(2) In light of subdivision (l)(1) of this section, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee as provided by subsection (f) of this section.

(3)(A) The requirement of approval by the Legislative Council or Joint Budget Committee is not a severable part of subsection (f) of this section.

(B) If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of

competent jurisdiction, subsection (f) of this section is void.

(4) It is the intent of this section to provide for the appropriation acts of state agencies enacted during the Ninety-Fifth General Assembly to be superseded with information from this act as necessary to fully implement this act and provide for the continued services and operations of state agencies.

(b) The classification titles and grades established in § 21-5-208 under this act shall supersede the classification titles and grades established in a state agency appropriation act enacted by the Ninety-Fifth General Assembly that uses classification titles and grades other than those established by this act, regardless of the date that the state agency appropriation act becomes law.

(c) The classification titles and grades for state agencies established in a state agency appropriation act enacted by the Ninety-Fifth General Assembly shall be modified as follows during the fiscal year 2026, regardless of the date that the state agency appropriation act becomes law:
