"SECTION 1. Arkansas Code Title 6, Chapter 16, is amended to add an additional subchapter to read as follows:

6-16-1301. Findings.

The General Assembly finds that:

(1) The teaching of the theory of intelligent design does not require attributing the creation of the world or it's creatures to any god or gods;

(2) The teaching of the theory of intelligent design does not respect the establishment of any theistic religion any more than the teaching of evolutionary theory respects the establishment of the religions of secular humanism or scientific naturalism;

(3) Science should be taught in the spirit of free inquiry, including the discussion of the pros and cons of theories of origins;

(4) When topics are taught that may generate controversy, such as biological evolution, the curriculum should help students to understand the full range of scientific views that exist; and

(5) The prohibition of teaching alternative scientific theories is the cruelest and most abusive form of censorship because it prevents the very debate necessary for the scientific proof or disproof of competing theory.

6-16-1302. Definitions.

(a) As used in this subchapter "theory of intelligent design" means the scientific theory that holds that certain features of the universe and of living things are best explained by an intelligent cause and not by an undirected process such as

natural selection.

(b) The theory of intelligent design:

(1) Does not claim that science can determine the identity of the intelligent cause, nor does it claim that the intelligent cause must be a divine being or a higher power or an all-powerful force;

(2) Proposes that science can identify whether certain features of the natural world are the products of intelligence;

(3) Asserts that objectivity will lead not only to good origins science, but also to constitutional neutrality in this subjective, historical science that unavoidably impacts religion; and

(4) Promotes the scientific evidence of intelligent design, because proper consideration of that evidence is necessary to achieve not only scientific objectivity but also constitutional neutrality.

6-16-1303. Theory of intelligent design.

(a) The Department of Education shall include in the educational frameworks provisions for teaching the theory of intelligent design as a parallel to evolutionary theory in such a way as to not violate the establishment clause of the first amendment to the United States Constitution.

(b) The teachers of Arkansas may include, and are encouraged to include, in their lesson plans instruction on the theory of intelligent design as a parallel to evolutionary theory in such a manner as established by the educational frameworks."

SECTION 2. Emergency Clause.

It is found and determined by the General Assembly of the State of Arkansas that the change in ownership of long-term care facilities which represent a significant number of long-term care Medicaid facility beds in Arkansas should be subject to prior review and approval by the Director of the Department of Human Services as it could directly affect the health, safety, and welfare of long-term care facility residents and the public and that no law of this state presently provides for such review and approval. Therefore, an emergency is declared to exist and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:

(1) The date of its approval by the Governor;

(2) If the bill is neither approved nor vetoed by the Governor, the expiration of the period of time during which the Governor may veto the bill; or

(3) If the bill is vetoed by the Governor and the veto is overridden, the date the last house overrides the veto.

"Participation in Government Act".

16-63-502. Legislative findings.

The General Assembly finds and declares that:

(1) It is in the public interest to encourage participation by the citizens of the state of Arkansas in matters of public significance through the exercise of their constitutional rights of freedom of speech and the right to petition government for a redress of grievances;

(2) The valid exercise of the constitutional rights of freedom of speech and the right to petition government for a redress of grievances should not be chilled through abuse of the judicial process;

(3) The threat of a civil action for damages in the form of a strategic lawsuit against political participation and the possibility of considerable legal costs can act as a deterrent to citizens who wish to report information to federal, state, or local agencies; and

(4) Strategic lawsuits against political participation can effectively punish concerned citizens for exercising the constitutional right to speak and petition the government for redress of grievances.

16-63-503. Definitions.

As used in this subchapter:

(1) "An act in furtherance of the right of free speech or the right to

petition government for a redress of grievances under the Constitution of the United States or the Constitution of the State of Arkansas in connection with an issue of public interest or concern" includes, but is not limited to, any written or oral statement, writing, or petition made:

(A) Before or to a legislative, executive, or judicial proceeding, or other proceeding authorized by state, regional, county, or municipal governments; or

(B) In connection with an issue under consideration or review by a legislative, executive, or judicial body, or other body authorized by state, regional, county, or municipal government; and

(2)(A) "Privileged communication" means a communication made:

(i) In, to, or about an issue of public concern related to any legislative, executive, or judicial proceeding, or other proceeding authorized by state, regional, county, or municipal governments;

(ii) In the proper discharge of an official duty;

(iii) By a fair and true report of any legislative, executive, or judicial proceeding, or other proceeding authorized by state, regional, county, or municipal governments or anything said in the course of the proceeding;

(iv) All expressions of opinion or criticisms in regard to any legislative, executive, or judicial proceeding, or other proceeding authorized by state, regional, county, or municipal governments;

(v) All criticisms of the official acts of any and all public officers.

(B) "Privileged communication" does not include a statement or report concerning an official act of a public officer that knowingly and falsely imputes a crime to the public officer.

16-63-504. Immunity from suit.

Any person making a privileged communication or performing an act in furtherance of the right of free speech or the right to petition government for a redress of grievances under the Constitution of the United States or the Constitution of the State of Arkansas in connection with an issue of public interest or concern shall be immune from civil liability.

16-63-505. Verification requirement.

For any claim asserted against a person or entity arising from possible privileged communication or an act by that person or entity that could reasonably be construed as an act in furtherance of the right of free speech or the right to petition

government for a redress of grievances under the Constitution of the United States or the Constitution of the State of Arkansas in connection with an issue of public interest or concern, the party asserting the claim and the party's attorney of record, if any, shall be required to file, contemporaneously with the pleading containing the claim, a written verification under oath certifying that:

(1) The party and his or her attorney of record, if any, have read the claim;

(2) To the best of the party's or his or her attorney's knowledge, information, and belief formed after reasonable inquiry the claim is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law;

(3) The act forming the basis for the claim is not a privileged communication; and

(4) The claim is not asserted for any improper purpose such as to suppress a person's or entity's right of free speech or right to petition government, to harass, or to cause unnecessary delay or needless increase in the cost of litigation.

16-63-506. Failure to properly verify.

(a) If a claim governed by § 16-63-505 is not verified as required by § 16-63-505, the claim shall be stricken unless it is verified within ten (10) days after the omission is called to the attention of the party asserting the claim or his or her attorney of record.

(b)(1) If a claim is verified in violation of § 16-63-505, the court upon motion or upon its own initiative shall impose upon the persons who signed the verification, a represented party, or both an appropriate sanction, which may include dismissal of the claim and an order to pay to the other party or parties the amount of the reasonable expenses incurred because of the filing of the claim, including a reasonable attorney's fee.

(2) Other compensatory damages may only be recovered upon the demonstration that the claim was commenced or continued for the purpose of harassing, intimidating, punishing, or maliciously inhibiting a person or entity from making a privileged communication or performing an act in furtherance of the right of free speech or the right to petition government for a redress of grievances under the Constitution of the United States or the Constitution of the State of Arkansas in connection with an issue of public interest or concern.

16-63-507. Procedure.

(a)(1) All discovery and any pending hearings or motions in an action for a claim governed by § 16-63-505 shall be stayed upon the filing of a motion to dismiss

or a motion to strike under § 16-63-506.

(2) A hearing on a motion filed under § 16-63-506 shall be conducted not more than thirty (30) days after service unless emergency matters before the court require a later hearing.

(b) The court, upon motion and for good cause shown, may order that specified discovery or other hearings or motions be conducted notwithstanding the provisions of subsection (a) of this section.

16-63-508. Nothing in this subchapter shall affect or preclude the right of any party to any recovery otherwise authorized by common law, statute, or rule."

(d) Notice inviting bids shall be given not fewer than five (5) calendar days nor more than thirty (30) calendar days preceding the date for the opening of bids by publishing such notice at least one (1) time in at least one (1) newspaper having general circulation in the state or posting by electronic media, but in all instances adequate notice shall be given. The notice shall include a general description of the commodities, technical and general services, or professional and consultant services to be procured and shall state where invitations for bid may be obtained. The notice shall also state the date, time, and place of bid opening.

(e) Bids shall be opened publicly in the presence of one (1) or more witnesses at the time and place designated in the invitation for bids. Each bid, together with the name of the bidder, shall be recorded and open to public inspection.

(f)(1)(A) Bids shall be evaluated based on the requirements set forth in the invitation for bids.

(B) These requirements may include criteria to determine acceptability such as:

(i) Inspection;

(ii) Testing;

(iii) Quality;

(iv) Workmanship;

(v) Delivery;

(vi) Past performance; and

(vii) Suitability for a particular purpose and criteria affecting price such as life-cycle or total ownership costs.

(2)(A) The invitation for bids shall set forth the evaluation criteria to be used.

(g) Correction of patent or provable errors in bids which do not prejudice other bidders, or withdrawal of bids, may be allowed only to the extent permitted under regulations promulgated by the director and upon written approval of the Attorney General or a designee of such officer. No award shall be made on the basis of a corrected bid, if the corrected bid exceeds the next lowest bid of a responsible bidder.

(h) The contract shall be awarded with reasonable promptness by written notice to the lowest responsible bidder whose bid meets the requirements and criteria set forth in the invitation for bids. In the event all bids exceed available funds as certified by the appropriate fiscal officer, the director or the head of a procurement agency is authorized in situations where time or economic considerations preclude resolicitation of work of a reduced scope to negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsive and responsible bidder, in order to bring the bid within the amount of available funds. All other bidders requesting to be notified of the award decision shall be promptly notified of the decision.

(i) An invitation for bid may be cancelled, or any or all bids may be rejected in writing by the director or the agency procurement official.

19-11-1012. Standard contract forms.

(a) The State Procurement Director shall prescribe standard forms to be utilized by all state agencies.

(b) The standard contract form shall include the following items, plus such additional items as the director shall deem desirable for the purposes of this subchapter:

(1) A section setting forth in reasonable detail the objectives and scope of the contractual agreement and the methods to be used to determine whether the objectives specified have been achieved;

(2) The rates of compensation, transportation, per diem, subsistence, out-of-pocket allowances, and all other items of costs contemplated to be paid the contractor by the agency;

(3) The method by which the rate of compensation and the total payment shall be calculated;

(4) The maximum number of dollars which the agency may be obligated to pay to the contractor under the terms of the contract, including all expenses and other items of costs, and the source of funding to be utilized;

(5) The term of the contract;

(6)(A) The names ~~and social security numbers~~ of all individuals who will be supplying services to the agency or to third-party beneficiaries under the terms of the contracts, so far as those names are known to the contractor at the time of the execution of the contract.

(B) If the names of all individuals supplying services under the contract are not available at the time of the execution of the contract, the contract shall contain a provision requiring the contractor to submit periodically the names ~~and social security numbers~~ of individuals supplying services as soon as the identity of those individuals is known to the contractor;

(7) Where the contractor is a business entity, the federal identification number of the business entity shall be listed on the contract form;

(8)(A) A certification shall be included, signed by the contractor, as follows:

"_____ (name) _____ (title)

"I....., certify under penalty of perjury that, to the best of my knowledge and belief, no regular full-time or part-time employee of any state agency of the State of Arkansas will receive any personal, direct, or indirect monetary benefits which would be in violation of the law as a result of the execution of this contract."

(B) For the purpose of subdivision (b)(8)(A) of this section, it shall be understood that where the contractor is a widely held public corporation, the term "direct or indirect monetary benefit" shall not apply to any regular corporate dividends paid to a stockholder of the corporation who is also a state employee and who owns less than ten percent (10%) of the total outstanding stock of the contracting corporation;

(9)(A) For any contract in which the total compensation exclusive of reimbursable expenses to be paid by the agency does not exceed twenty-five thousand dollars ($25,000), a purchase order may be utilized in lieu of the standard form or forms prescribed by the director.

(B)(i) However, should the agency enter into a subsequent contract with the same individual or organization during the same fiscal year, regardless of the nature of the contract, then the details of the original contract which utilized a purchase order form and of all subsequent contracts, regardless of amount or type, shall be promptly reported to the director.

(ii) This reporting shall be done to allow him or her to determine whether the agency is utilizing a series of contracts to avoid the use of the standard form and to avoid the application of appropriate regulations;

(10) Standard contract forms in use by licensed practitioners such as architects and engineers may be used to supplement the standard contract forms; and

(11) All professional consultant services contracts shall contain the following clause:

"In the event the State of Arkansas fails to appropriate funds or make moneys available for any biennial period covered by the term of this contract for the services to be provided by the contractor, this contract shall be terminated on the last day of the last biennial period for which funds were appropriated or moneys made available for such purposes.

This provision shall not be construed to abridge any other right of termination the agency may have."

(c) For the purpose of reporting methods of finance, agencies shall disclose the total estimated project cost in addition to any other reporting requirements of the Legislative Council or the Joint Budget Committee.

SECTION 27. SPECIAL LANGUAGE. NOT TO BE INCORPORATED INTO THE ARKANSAS CODE NOR PUBLISHED SEPARATELY AS SPECIAL, LOCAL AND TEMPORARY LAW. USE OF MAINTENANCE AND OPERATION APPROPRIATION AND SALVAGED MATERIALS CONSTRUCTION. The Department of Correction is hereby authorized to utilize Maintenance and General Operation Appropriation in conjunction with surplus and/or salvageable materials for the purpose of implementing construction projects to benefit the Department and its

various programs. Before such projects may be undertaken, a Method of Finance must be submitted for prior review and approval by the Arkansas Legislative Council or Joint Budget Committee, and review and approval by the Department of Finance and Administration and the Arkansas State Building Services.

Determining the maximum number of employees and the maximum amount of appropriation and general revenue funding for a state agency each fiscal year is the prerogative of the General Assembly. This is usually accomplished by delineating such maximums in the appropriation act(s) for a state agency and the general revenue allocations authorized for each fund and fund account by amendment to the Revenue Stabilization law. Further, the General Assembly has determined that the Department of Correction may operate more efficiently if some flexibility is provided to the Department of Correction authorizing broad powers under this Section. Therefore, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee as provided by this section. The requirement of approval by the Legislative Council or Joint Budget Committee is not a severable part of this section. If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of competent jurisdiction, this entire section is void.

The provisions of this section shall be in effect only from ~~July 1, 2003~~ July 1, 2005 through ~~June 30, 2005~~ June 30, 2007.

The provisions of this section shall be in effect only from ~~July 1, 2003~~ July 1, 2005 through ~~June 30, 2005~~ June 30, 2007.

SECTION 29. SPECIAL LANGUAGE. NOT TO BE INCORPORATED INTO THE ARKANSAS CODE NOR PUBLISHED SEPARATELY AS SPECIAL, LOCAL AND TEMPORARY LAW. MENTAL HEALTH SERVICES. In the event the Department determines to enter into a professional contract for mental health services, the Department may, upon approval of the Chief Fiscal Officer of the State and after prior review and approval by the Arkansas Legislative Council or Joint Budget Committee, make appropriate transfers from regular salaries, personal services matching and various maintenance and operation classifications to the professional

fees and services classification for payment of the contractual amount.

Determining the maximum number of employees and the maximum amount of appropriation and general revenue funding for a state agency each fiscal year is the prerogative of the General Assembly. This is usually accomplished by delineating such maximums in the appropriation act(s) for a state agency and the general revenue allocations authorized for each fund and fund account by amendment to the Revenue Stabilization law. Further, the General Assembly has determined that the Department of Correction may operate more efficiently if some flexibility is provided to the Department of Correction authorizing broad powers under this Section. Therefore, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee as provided by this section. The requirement of approval by the Legislative Council or Joint Budget Committee is not a severable part of this section. If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of competent jurisdiction, this entire section is void.

Therefore, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee as provided by this section. The requirement of approval by the Legislative Council or Joint Budget Committee is not a severable part of this section.

If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of competent jurisdiction, this entire section is void.

The provisions of this section shall be in effect only from ~~July 1, 2003~~ July 1, 2005 through ~~June 30, 2005~~ June 30, 2007.
