Upon motion of Representative Verkamp, HOUSE BILL NO. 2857 was placed back on second reading for the purpose of amendment.

AMENDMENT NO. 1 TO HOUSE BILL NO. 2857

Amend HOUSE BILL NO. 2857 as originally introduced:

Delete everything following the enacting clause and substitute the following:

"SECTION 1. Arkansas Code § 5-1-109, pertaining to statutes of limitations for criminal offenses, is amended to add an additional subsection to read as follows:

(j) If the prosecution of a felony offense is not barred by a statute of limitation prior to the effective date of this subsection (j) and deoxyribonucleic acid testing implicates in the commission of the felony a person previously identified through a search of the State DNA Data Base or National DNA Index System, then the prosecution of the person previously identified shall not be precluded by any statute of limitation that would otherwise preclude the prosecution.

SECTION 2. Arkansas Code § 16-112-201 is amended to read as follows:

16-112-201. Appeals - New scientific evidence.

(a) Except when direct appeal is available, a person convicted of a crime may commence a proceeding to secure relief by filing a petition in the court in which the conviction was entered to vacate and set aside the judgment and to discharge the petitioner or to resentence the petitioner or grant a new trial or correct the sentence or make other disposition as may be appropriate, if the person claims under penalty of perjury that:

(1) Scientific evidence not available at trial establishes the petitioner's actual innocence; or

(2) The scientific predicate for the claim could not have been previously discovered through the exercise of due diligence and the facts underlying the claim, if proven and viewed in light of the evidence as a whole, would be sufficient to establish by clear and convincing evidence that no reasonable fact-finder would find the petitioner guilty of the underlying offense.

(b) Nothing contained in this subchapter shall prevent the Arkansas Supreme Court or the Arkansas Court of Appeals, upon application by a party, from granting a stay of an appeal to allow an application to the trial court for an evidentiary hearing under this subchapter.

SECTION 3. Arkansas Code § 16-112-202 is amended to read as follows:

16-112-202. Form of motion.

~~(a)(1)~~ Except when direct appeal is available, a person convicted of a crime

may make a motion for the performance of fingerprinting, forensic deoxyribonucleic acid testing, or other tests which may become available through advances in technology to demonstrate the person's actual innocence if:

~~(A) The testing is to be performed on evidence secured in relation to the trial which resulted in the conviction; and~~

~~(B) The evidence was not subject to the testing because either the technology for the testing was not available at the time of the trial or the testing was not available as evidence at the time of the trial.~~

~~(2) The motion shall be filed before the court in which the conviction was entered.~~

~~(3) Reasonable notice of the motion shall be served on the prosecuting attorney who represented the state at trial.~~

~~(b) A person who makes a motion for the performance of fingerprinting, forensic deoxyribonucleic acid testing, or other tests which may become available through advances in technology to demonstrate the person's actual innocence must present a prima facie case that:~~

~~(1) Identity was an issue in the trial; and~~

~~(2) The evidence to be tested has been subject to a chain of custody sufficient to establish that it has not been substituted, tampered with, replaced, or altered in any material aspect.~~

~~(c)(1) The court shall order that the testing be performed if:~~

~~(A) A prima facie case has been established under subsection (b) of this section;~~

~~(B) The testing has the scientific potential to produce new noncumulative evidence materially relevant to the defendant's assertion of actual innocence; and~~

~~(C) The testing requested employs a scientific method generally accepted within the relevant scientific community.~~

~~(2) The court shall impose reasonable conditions on the testing designed to protect the state's interests in the integrity of the evidence and the testing process.~~

(1) The specific evidence to be tested was secured as a result of the investigation or prosecution of an offense being appealed under § 16-112-201;

(2) The specific evidence to be tested was not previously subjected to testing and the person making the motion under this section did not:

(A) Knowingly and voluntarily waive the right to request testing of the evidence in a court proceeding commenced after January 1, 2004; or

(B) Knowingly fail to request testing of the evidence in a prior

motion for post-conviction testing;

(3) The specific evidence was previously subjected to testing and the person making a motion under this section is requesting testing using a new method or technology that is substantially more probative than the prior testing;

(4) The specific evidence to be tested is in the possession of the state and has been subject to a chain of custody and retained under conditions sufficient to ensure that the evidence has not been substituted, contaminated, tampered with, replaced, or altered in any respect material to the proposed testing;

(5) The proposed testing is reasonable in scope, utilizes scientifically sound methods, and is consistent with accepted forensic practices;

(6) The person making a motion under this section identifies a theory of defense that:

(A) Is not inconsistent with an affirmative defense presented at the trial of the offense being appealed under § 16-112-201; and

(B) Would establish the actual innocence of the person in relation to the offense being appealed under § 16-112-201;

(7) The identity of the perpetrator was at issue during the investigation or prosecution of the offense being appealed under § 16-112-201;

(8) The proposed testing of the specific evidence may produce new material evidence that would:

(A) Support the theory of defense described in subdivision (6) of this section; and

(B) Raise a reasonable probability that the person making a motion under this section did not commit the offense;

(9) The person making a motion under this section certifies that he or she will provide a deoxyribonucleic acid, fingerprint, or other sample for comparison; and

(10) The motion is made in a timely fashion subject to the following conditions:

(A) There shall be a rebuttal presumption of timeliness if the motion is made within thirty-six (36) months of the date of conviction. The presumption may be rebutted upon a showing:

(i) That the motion for a test under this section is based solely upon information used in a previously denied motion; or

(ii) Of clear and convincing evidence that the motion filed under this section was filed solely to cause delay or harassment; and

(B) There shall be a rebuttable presumption against timeliness for any motion not made within thirty-six (36) months of the date of conviction. The

presumption may be rebutted upon a showing:

(i) That the person making a motion under this section was or is incompetent and the incompetence substantially contributed to the delay in the motion for a test;

(ii) That the evidence to be tested is newly discovered evidence;

(iii) That the motion is not based solely upon the person's own assertion of innocence and a denial of the motion would result in a manifest injustice; or

(iv) Of good cause.

SECTION 4. Arkansas Code Title 16, Chapter 112, Subchapter 2 is amended to add an additional section to read as follows:

16-112-208. Testing procedures.

(a)(1) A court that orders any deoxyribonucleic acid testing under this subchapter shall direct the testing to be carried out by the State Crime Laboratory.

(2)(A) However, the court may order deoxyribonucleic acid testing by another qualified laboratory if the court makes all necessary orders to ensure the integrity of the specific evidence and the reliability of the testing process and test results.

(B) As used in this section, “qualified laboratory” means a laboratory that is accredited by the American Society of Crime Laboratory Directors or certified through the National Forensic Science Technology Center.

(3) The court may order the person who requested any deoxyribonucleic acid testing under this subchapter to pay for the cost of the testing if the court determines that the person has the ability to pay for the testing.

(b) If the deoxyribonucleic acid test results obtained under this subchapter are inconclusive, the court may order additional testing or deny further relief to the person who requested the testing.

(c)(1) If deoxyribonucleic acid test results obtained under this subchapter establish that the person who requested the testing was the source of the deoxyribonucleic acid evidence, the court shall deny any relief to the person.

(2) On motion of the state, the court shall determine if the person's assertion of actual innocence was false. If the court finds that the person's assertion of actual innocence was false, the court may:

(A) Hold the person in contempt;

(B) Assess against the person the cost of any deoxyribonucleic acid testing carried out under this subchapter;

(C) Forward the finding to the Board of Corrections for consideration in the awarding of meritorious good time to the person; or

(D) Forward the finding to the Post Prison Transfer Board for consideration in the granting of parole to the person.

(d) In any prosecution of a person for false assertions in a proceeding under this subchapter upon conviction or a plea of guilty or nolo contendere, the person shall be subject to a term of imprisonment of not less than three (3) years that shall run consecutively with any other term of imprisonment the person is serving.

(e)(1) If deoxyribonucleic acid test results obtained under this subchapter exclude a person as the source of the deoxyribonucleic acid evidence, the person may file a motion for a new trial or resentencing.

(2) The court shall establish a reasonable schedule for the person to file a motion under subdivision (e)(1) of this section and for the state to respond to the motion.

(3) The court may grant the motion of the person for a new trial or resentencing if the deoxyribonucleic acid test results, when considered with all other evidence in the case regardless of whether the evidence was introduced at trial, establish by compelling evidence that a new trial would result in an acquittal.

(f) In a case in which a person is sentenced to death, any deoxyribonucleic acid testing ordered under this subchapter shall be completed:

(1) No later than sixty (60) days after the date on which the state responds to the motion described in §§ 16-112-202 and 16-112-203; or

(2) No later than one hundred twenty (120) days after the date on which the deoxyribonucleic acid testing was ordered under any post-conviction testing procedures under this subchapter.

(g)(1) The results of any deoxyribonucleic acid testing ordered under this subchapter shall be simultaneously disclosed to the court, the person that requested the testing, and the State of Arkansas.

(2)(A) The state shall submit any test results relating to a person's deoxyribonucleic acid to the National DNA Index System.

(B) If the deoxyribonucleic acid test results obtained under this subchapter are inconclusive or show that the person tested was the source of the deoxyribonucleic acid evidence, the deoxyribonucleic acid sample of the person tested may be retained in the National DNA Index System and State DNA Data Base.

(C) If the deoxyribonucleic acid test results obtained under this subchapter exclude the person tested as the source of the deoxyribonucleic acid evidence but a comparison of the deoxyribonucleic acid sample of the person tested

results in a match between the person's sample and another offense, the State Crime Laboratory shall notify the appropriate agency and preserve the deoxyribonucleic acid sample of the person tested.

(D) The State Crime Laboratory shall destroy the deoxyribonucleic acid sample of the person tested and ensure that the information is not retained in the National DNA Index System or State DNA Data Base if:

(i) The deoxyribonucleic acid test results obtained under this subchapter exclude the person tested as the source of the deoxyribonucleic acid evidence;

(ii) A comparison of the deoxyribonucleic acid sample through a search of the State DNA Data Base or National DNA Index System does not match the person's sample and another offense; and

(iii) There is no other legal authority to retain the sample of the person tested in the National DNA Index System or State DNA Data Base."

AND

Delete everything after the Enacting Clause and substitute the following:

“SECTION 1. Arkansas Code § 2-4-101 is amended to read as follows:

2-4-101. Purpose.

It is the declared policy of the state to conserve, protect, and encourage the development and improvement of its agricultural ~~land~~ and forest lands and other facilities for the production of food, fiber, and other agricultural and silvicultural products. When nonagricultural land uses extend into agricultural areas, agricultural operations often become the subject of nuisance suits. As a result, agricultural operations are sometimes forced to cease operations. Many others are discouraged from making investments in farm or other agricultural improvements. It is the purpose of this chapter to reduce the loss to the state of its agricultural resources by limiting the circumstances under which agricultural operations may be deemed to be a nuisance.

SECTION 2. Arkansas Code § 2-4-102 is amended to read as follows:

2-4-102. Definition.

~~As used in this chapter, unless the context otherwise requires, "agricultural facility" or "facility" means, but is not limited to, any plant, facility, structure, or establishment used for the feeding, growing, production, holding, processing, storage, or distribution for commercial purposes of crops, livestock, poultry, swine, or fish, or products derived from any of them.~~

As used in this chapter:

(1) “Agricultural operation” or “farming operation” means an agricultural, silvicultural, or aquacultural facility or pursuit conducted, in whole or in part, including:

(A) The care and production of livestock and livestock products,

poultry and poultry products, apiary products, and plant and animal production for nonfood uses;

(B) The planting, cultivating, harvesting, and processing of crops and timber; and

(C) The production of any plant or animal species in a controlled freshwater or saltwater environment; and

(2) "Agriculture" includes agriculture, silviculture, and aquaculture.

SECTION 3. Arkansas Code § 2-4-104 is repealed.

~~2-4-104. Nonapplicable to certain facilities.~~

~~This chapter shall not apply to an agricultural facility which materially changes its character of operation or materially increases the size of its physical plant.~~

SECTION 4. Arkansas Code § 2-4-105 is amended to read as follows:

2-4-105. Local ordinances void.

Any and all ordinances adopted by any municipality or county in which an agricultural ~~facility~~ operation is located making or having the effect of making the agricultural operation ~~of~~ or any agricultural facility or its appurtenances a nuisance or providing for an abatement thereof as a nuisance in the circumstances set forth in this chapter are void and shall have no force or effect.

SECTION 5. Arkansas Code § 2-4-107 is amended to read as follows:

2-4-107. ~~Facility~~ Operation not to become nuisance.

(a) An agricultural ~~facility, its appurtenances, or the operation thereof~~ operation or its facilities or appurtenances shall not be or become a nuisance, private or public, as a result of any changed conditions in and about the locality after it has been in operation for a period of one (1) year or more when the ~~facility, its appurtenances, or the operation thereof was~~ agricultural operation or its facilities or appurtenances were not a nuisance at the time the operation began.

(b)(1) Except as provided in this section, an agricultural operation shall not be found to be a public or private nuisance if the agricultural operation alleged to be a nuisance employs methods or practices that are commonly or reasonably associated with agricultural production.

(2) An agricultural operation that employs methods or practices that are commonly or reasonably associated with agricultural production shall not be found to be a public or private nuisance as a result of any of the following activities or conditions:

(A) Change in ownership or size;

(B) Nonpermanent cessation or interruption of farming;

(C) Participation in any governmental sponsored agricultural program;

(D) Employment of new technology; or

(E) Change in the type of agricultural product produced.

"SECTION 1. Arkansas Code Title 6, Chapter 20, Subchapter 107 is amended to add a new section to read as follows:

6-20-107. Educational cost reimbursement prohibition.

(a) As used in this section, "juvenile" means a person who is eighteen (18) years old or less.

(b) The Department of Education, a public school district, or an open-enrollment charter school shall not be liable for any educational costs or other related costs associated with the placement of a juvenile in an out-of-state residential or inpatient facility for any care and treatment, including psychiatric treatment, unless:

(1) At the time of placement:

(A) The juvenile qualifies as disabled under the Individuals with Disabilities Education Act, 20 U.S.C. § 1400 et seq.; and

(B) Payment is required under the Individuals with Disabilities Education Act; and

(2) The Department of Education authorizes public payment for educational costs based on a determination that the educational program and facilities are appropriate for the juvenile and the Department of Education has approved the facility's educational program; and

(3) Each program authorization must precede the placement and if the program is not authorized prior to placement, the Department of Education, public school districts, or open-enrollment charter schools shall not be responsible for

education or other related costs, nor shall they be subject to any order to pay for educational or other related costs.

(c) The department, a public school district, or an open-enrollment charter school shall not be liable for any educational costs or other related costs associated with the placement of a juvenile in an in-state residential or inpatient facility for any care and treatment, including psychiatric treatment, unless:

(1) The Department of Education authorizes public payment for educational costs based on a determination that the educational program and facilities are appropriate for the juvenile and the Department of Education has approved the facility's educational program; and

(2) Each program authorization must precede the placement and if the program is not authorized prior to the placement, the Department of Education, public school districts, or open-enrollment charter schools shall not be responsible for education or other related costs, nor shall they be subject to any order to pay for educational or other related costs.

(d) The liability of the department, a public school district, or an open-enrollment charter school for the educational costs or other related costs described in subsections (a) and (b) of this section shall be limited to the lesser of:

(1) The reimbursement rate established by the department for a juvenile placed in a residential or inpatient facility; or

(2) The normal and customary educational cost reimbursement rate of the state in which a juvenile is placed in an out-of-state residential or inpatient facility as determined by the department.

(e) This section shall not apply to a juvenile placed in an Arkansas juvenile detention facility as defined in § 6-20-104.

(f) Nothing in this section shall be construed to require payment by the department, a public school district, or an open-enrollment charter school for educational costs and other related costs associated with the placement of a juvenile in an out-of-state residential or inpatient facility for any care or treatment, including psychiatric treatment, prior to the effective date of this section.

SECTION 2. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that certain out-of-state parties are seeking to make legal claims for educational resources otherwise to be provided to Arkansas public schools; that these legal claims may jeopardize or negatively impact the adequacy of public education funding and resources; and that immediate passage of this act is necessary to ensure the appropriate management of educational services and related costs associated with juveniles placed in a residential or inpatient facility for any care or treatment, including psychiatric

treatment. Therefore, an emergency is declared to exist and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:

(1) The date of its approval by the Governor;

(2) If the bill is neither approved nor vetoed by the Governor, the expiration of the period of time during which the Governor may veto the bill; or

(3) If the bill is vetoed by the Governor and the veto is overridden, the date the last house overrides the veto."

"SECTION 1. Arkansas Code § 23-17-404 is amended to read as follows:

23-17-404. Preservation and promotion of universal service.

(a)(1) The Arkansas Universal Service Fund (AUSF) is established by this section in order to promote and assure the availability of universal service at rates that are reasonable and affordable and to provide for reasonably comparable services and rates between rural and urban areas.

(2) The AUSF will provide funding to eligible telecommunications carriers that provide basic local exchange services over ~~facilities owned~~ their own facilities or a combination of their own facilities and resale of another carrier's services by the eligible telecommunications carrier.

(3) The AUSF shall be designed to provide predictable, sufficient, and sustainable funding to eligible telecommunications carriers serving rural or high-cost areas of the state.

(b)(1) The AUSF is to provide a mechanism to restructure the present system of telecommunication service rates in the state as provided herein, and all telecommunications providers, except as prohibited by federal law, shall be charged for the direct and indirect value inherent in the obtaining and preserving of reasonable and comparable access to telecommunications services in the rural or high-cost areas. The value and utility of access to and interconnection with the public switched network will be lessened if the rural or high-cost areas do not have comparable access and subscribership.

(2)(A) This AUSF charge for all telecommunications providers shall be proportionate to each provider's Arkansas intrastate retail telecommunications service revenues.

(B) Because customers of the telecommunications providers that would pay the AUSF charge receive the benefits of a universal network, the telecommunications providers may surcharge their customers to recover the AUSF charges paid by the telecommunications provider. Therefore, the AUSF charge is not a tax and is not affected by state laws governing taxation.

(C) For the purpose of assessing mobile telecommunications services, the administrator shall continue to assess only Arkansas intrastate retail telecommunications service revenues and only to the extent such revenues may be considered located in the State of Arkansas in accordance with the Mobile Telecommunications Sourcing Act, Pub. L. No. 106-252.

(c)(1) The Arkansas Public Service Commission shall delegate to a trustee, the "administrator", the administration, collection, and distribution of the AUSF in accordance with the rules and procedures established by the commission and consistent with this subchapter.

(2)(A) The administrator shall enforce and implement all rules and directives governing the funding, collection, and eligibility for the AUSF.

(B) Within sixty (60) days after receipt of a request for AUSF funds, the administrator shall review and determine the accuracy and appropriateness of the request and advise the entity requesting the funds of his or her determination.

(C) The affected parties shall have thirty (30) days to request reconsideration by the commission of the administrator's determination, and the commission after notice and hearing, if requested, shall issue its opinion on the reconsideration within thirty (30) days after the request of reconsideration.

(D) Persons aggrieved by the commission's opinion shall have the right to appeal the opinion in accordance with law.

(d)(1) The AUSF administrator periodically shall establish and notify each telecommunications provider of the AUSF charge levels required to be paid by the telecommunications provider.

(2) Any telecommunications provider that without just cause fails to pay the AUSF charge that is due and payable pursuant to this section after notice and opportunity for hearing shall have its authority to do business as a telecommunications provider in the State of Arkansas revoked by the commission.

(3) The AUSF charge shall not be subject to any state or local tax or franchise fees.

(4) The commission is authorized to increase the AUSF charge by those amounts necessary to recover the cost of administration of the AUSF.

(e) After reasonable notice and hearing, the commission shall establish rules and procedures necessary to implement the AUSF. The commission shall implement the AUSF and make AUSF funds available to eligible telecommunications carriers no later than ninety (90) days following the later of February 4, 1997, or the effective date of a Federal Communications Commission order pursuant to 47 U.S.C. § 254 that approves, establishes, or modifies interstate universal service funding. Prior to the implementation and availability of funds from the AUSF, the commission shall not require any local exchange carrier to reduce rates for intrastate switched-access services or require any local exchange carrier to reduce its net revenue received from the Arkansas IntraLATA Toll Pool (AITP). In establishing and implementing the AUSF, the commission shall adhere to the following instructions and guidelines:

(1)(A) AUSF funding shall be provided directly to eligible telecommunications carriers;.

(B) In order for an eligible telecommunications carrier to receive funds from the AUSF, the eligible telecommunications carrier must agree to be subject to the telecommunications provider rules promulgated by the commission;

(2)(A) After reasonable notice and hearing, the commission may revise the list of universal services identified in § 23-17-403 that may be supported by the AUSF to establish and maintain end-user rates for universal services that are reasonably comparable between urban and rural areas or to reflect changes in the type and quality of telecommunications services considered essential by the public, as evidenced, for example, by those telecommunication services that are purchased and used by a majority of single-line urban customers.

(B) The commission shall determine and approve AUSF funding to eligible telecommunications carriers to recover the cost of additions or revisions to the universal service list concurrent with any such revisions to the list of universal services identified in § 23-17-403;

(3) If the commission establishes or utilizes a minimum or threshold universal service rate, threshold rate, for the purpose of determining the amount of AUSF that an eligible telecommunications carrier may receive, the commission shall adhere to the following requirements:

(A) A rate case proceeding or earnings investigation or analysis shall not be required or conducted in connection with the determination or implementation of increases in universal service rates associated with commission

use of a threshold rate, and the increases shall not be included in the calculation of the basic local exchange service rate increase limits specified in §§ 23-17-407 and 23-17-412; and

(B) The commission may not require a reduction in universal service rates to a threshold rate unless any associated decrease in revenues is allowed to be concurrently recovered from the AUSF;

(4)(A)(i) In the event of a Federal Communications Commission order, rule, or policy ~~pursuant to 47 U.S.C. § 254(a)(2), the effect of which is to change~~ that changes the federal Universal Service Fund revenues ~~of an incumbent local exchange carrier~~ of an eligible telecommunications carrier after July 1, 2005, the commission shall either increase the rates for basic local exchange service or increase the ~~incumbent local exchange carrier's~~ recovery from the AUSF or a combination thereof to replace the reasonably projected change in revenues.

(ii) In determining whether to increase basic local exchange service rates or increase the AUSF for a tier one company pursuant to this section, the commission shall take into account that company's rates and consider whether the rates are below the statewide average.

(B)(i)(a) Through ~~December 31, 2003~~ July 1, 2005, any rural telephone company, excluding tier one companies, that, as a result of changes caused by new or existing federal or state regulatory or statutory directives, experiences a change in intrastate or interstate switched-access services revenues or in net revenue received from the intrastate Carrier Common Line Pool before January 1, 2004, interstate access charge pools, or the Arkansas IntraLATA Toll Pool shall be allowed to recover the reductions from the AUSF or through modifications in rates applicable to basic local exchange service. The recovered amounts shall be limited to the net reduction in revenues from all sources of support listed in subdivision (e)(4)(A) of this section and this subdivision (e)(4)(B) and shall be subject to the provisions of subdivisions (e)(6)(D) and (e)(9) of this section.

(b) Beginning July 1, 2005, any rural telephone company, excluding tier one companies, that, as a result of changes caused by new or existing federal or state regulatory or statutory directives, experiences a change in intrastate or interstate switched-access services revenues or ~~in net revenue received from the intrastate Carrier Common Line Pool prior to January 1, 2004,~~ interstate access charge pools~~, or the Arkansas IntraLATA Toll Pool~~ shall be allowed to recover the reductions from the AUSF or through modifications in rates applicable to basic local exchange service. The recovered amounts shall be limited to the net reduction in revenues from all sources of support listed in subdivision (e)(4)(A) of this section and this subdivision (e)(4)(B).

(ii)(a) This subdivision (e)(4)(B)(ii) shall become effective on January 1, 2004.

(b) No ILEC shall receive reimbursement from the AUSF for losses resulting from exiting the AICCLP or for a reduction of its carrier common line net revenue requirement unless:

(1) The ILEC is eligible to be in the AICCLP on January 1, 2004; and

(2)(A) The AICCLP no longer provides a mechanism by which ILECs may recover their carrier common line net revenue requirements.

(B)(i) If any provision of the AICCLP is declared invalid for any reason or preempted by any court or any administrative agency and the Arkansas Public Service Commission determines that the provision is material, then each AICCLP member shall individually compute and charge a per-access minute carrier common line rate to fund its carrier common line net revenue requirement.

(ii) The AICCLP members shall charge the rate under subdivision (e)(4)(B)(ii)(b)(2)(B)(i) of this section to underlying carriers.

(iii) The ILECs shall charge a reciprocal rate to other ILECs.

(iv) The commission may review the accuracy of the reciprocal rates and the per-access minute carrier common line rate charged under subdivision (e)(4)(B)(ii)(b)(2)(B) of this section.

(c) If the AICCLP fails to provide an ILEC's carrier common line net revenue requirement, the commission shall provide for concurrent recovery of the revenue loss from the AUSF, basic local exchange rates, or a combination thereof.

(C) In connection with the receipt of AUSF funds for these changes referred to in subdivisions (e)(4)(A) or (B) of this section, it shall not be conditioned upon any rate case or earnings investigation by the commission. The AUSF administrator shall verify the calculations and accuracy of the net revenue reductions, based on a comparison between:

(i) The total annual revenues received from these sources by the eligible telecommunications carrier during the most recent twelve (12) months preceding the required regulatory or statutory changes; and

(ii) The reasonable projection of total test-year annual revenue after the changes are implemented.

(D)(i)(a) Through December 31, 2003, except as provided in

this subdivision (e)(4)(D), the intrastate Carrier Common Line Pool charges billed to carriers by the Arkansas Intrastate Carrier Common Line Pool (AICCLP) shall be determined as provided in the AICCLP tariff effective on December 31, 2000. Following April 20, 2001, carriers must continue to report RBMOUs associated with the traffic that they reported as of December 2000 except that incumbent local exchange carriers may discontinue reporting RBMOUs associated with their intracompany flat-rated optional plans that exist as of June 1, 2001. The AICCLP charges shall be adjusted to eliminate any credits to the AICCLP or to interexchange carriers that have been previously required.

(b) Beginning January 1, 2004, except as provided in this subdivision (e)(4)(D), the intrastate Carrier Common Line charges billed to ILECs and underlying carriers shall be determined at the rate of one and sixty-five hundredths cents (1.65›) per intrastate access minute, exclusive of the amounts specified in subdivisions (e)(4)(D)(ii), (iii), and (iv) of this section. However, ILECs that are not AICCLP members may charge at a rate that is less than one and sixty-five hundredths cents (1.65›) and may recover the difference between the actual rate charged and one and sixty-five hundredths cents (1.65›) as allowed under § 23-17-416(b)(3). Following April 20, 2001, carriers must continue to report RBMOUs associated with the traffic that they reported as of December 2000 and shall continue to report through December 31, 2003, except that incumbent local exchange carriers may discontinue reporting RBMOUs associated with their intracompany flat-rated optional plans that exist as of June 1, 2001. The AICCLP charges shall be adjusted to eliminate any credits to the AICCLP or to interexchange carriers that have been previously required.

(ii)(a) There is created an allocation of AICCLP funds to be known as the "Extension of Telecommunications Facilities Fund".

(b) A maximum of five hundred thousand dollars ($500,000) per year of AICCLP funds shall be allocated to fund the Extension of Telecommunications Facilities Fund to assist in the extension of telecommunications facilities to citizens not served by the wire line facilities of an eligible telecommunications carrier.

There is also created an AICCLP allocation to be known as the "Arkansas Calling Plan Fund".

(2) Through December 31, 2003, the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund will be funded by the AICCLP by assessing one-half (1/2) of the fund to be paid by ILECs and one-half (1/2) of the fund to be paid by all other telecommunications providers reporting intrastate retail billed minutes of use to the AICCLP.

(b) The Arkansas Calling Plan Fund shall receive a maximum of four million five hundred thousand dollars ($4,500,000) per year to assist in funding the provision of calling plans in telephone exchanges in the state.

(iv)(a) Through December 31, 2003, the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund will be funded by the AICCLP assessing one-half (1/2) of the fund to be paid by incumbent local exchange carriers (ILECs) and one-half (1/2) of the fund to be paid by all other telecommunications providers reporting intrastate retail billed minutes of use to the AICCLP. Beginning January 1, 2004, the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund will be paid by the AICCLP members, exiting ILECs, and underlying carriers as follows:

(1) Each AICCLP member and each exiting ILEC shall remit to the AICCLP administrator on a monthly basis the proportion of the total assessment each was paying before December 31, 2003, for a collective total of one-half (1/2) of those funds;

(2) Underlying carriers shall pay to the administrator a collective total of one-half (1/2) of the cost of the Arkansas Calling Plan Fund and Extension of Telecommunications Facilities Fund; and

(3) Each underlying carrier shall continue to remit to the administrator on a monthly basis its portion of the underlying carrier funding requirement of the Arkansas Calling Plan Fund and Extension of Telecommunications Facilities Fund, based upon the underlying carrier's share of Arkansas intrastate telecommunications services revenues and special intrastate ILEC revenues proportionate to the total Arkansas intrastate telecommunications services revenues and special intrastate ILEC revenues of all underlying carriers.

(b) Through December 31, 2003, ILECs shall be individually assessed in accordance with the proportion that the ILEC funds the AICCLP credits that are being eliminated by this section, and each other telecommunications provider shall be assessed based on its portion of the total non-ILEC intrastate retail billed minutes of use.

(c) Amounts paid by ILECs to fund either the Extension of Telecommunications Facilities Fund or the Arkansas Calling Plan Fund created by this section shall not be recoverable from the Arkansas Universal Service Fund (AUSF).

The assessments shall commence upon the first day of the month following April 20, 2001.

(2) The first four million dollars ($4,000,000) shall be allocated monthly as collected to assure that the AUSF has adequate funds to compensate any

retroactive claims that may be made against the AUSF due to the change in the test period resulting from the decision in AT&T Communications of the S.W., Inc. v. Arkansas Pub. Serv. Comm'n, 344 Ark. 188, 40 S.W.3d 273 (2001).

(3) Following the allocation to the AUSF, assessments shall be made with respect to the Extension of Telecommunications Facilities Fund and the Arkansas Calling Plan Fund only to the extent necessary, but not more than the maximum specified in this section, to fund any extensions of facilities or calling plans approved by the Arkansas Public Service Commission in accordance with applicable law and this section.

(v)(a) AICCLP charges determined and billed through December 2000 shall be considered final and not subject to further true up or adjustment.

(b) In addition, if an eligible telecommunications carrier was financially harmed by a court-ordered change in the test period applicable for the AUSF funding and an alternate test period was used by the eligible telecommunications carrier for more than one (1) year, then the test period for the harmed eligible telecommunications carrier shall remain the test period originally set by the commission.

Unless an audit is requested prior to February 28, 2004, by a two-thirds (2/3) vote of the participating carriers of the AICCLP as it is constituted prior to January 1, 2004, charges determined and billed through December 2003 shall be considered final and not subject to audit.

(2) The administrator of the AICCLP as it existed prior to January 1, 2004, may supervise any audit that is requested and may further take any action deemed reasonable or necessary to finalize the winding-up process of the AICCLP as it existed prior to January 1, 2004;

(5) All eligible telecommunications carriers may request high-cost funding from the AUSF as necessary in the future to maintain rates for universal services that are reasonable, affordable, and comparable between urban and rural areas. Except as otherwise provided in this subchapter, the funding shall be based on all net investment, including embedded investment, and expenses incurred by the eligible telecommunications carriers in the provision of universal service. High-cost funding shall be provided to eligible telecommunications carriers as needed for the following:

(A) Investments and expenses required to provide, maintain, and support universal services;

(B) Infrastructure expenditures in response to facility or service requirements established by any legislative, regulatory, judicial authority, or

governmental entity; and

(C) For other purposes deemed necessary by the commission to preserve and advance the public education and welfare;

(6) In identifying and measuring the costs of providing universal services, exclusively for the purpose of determining high-cost funding levels under this subdivision (e)(6), eligible telecommunications carriers shall have the following options:

(A) The eligible telecommunications carrier may utilize traditional rate case methods and procedures to identify universal service revenue requirements and a residual AUSF funding requirement;

(B) The eligible telecommunications carrier may identify high-cost areas within its local exchange area, the area being no smaller than a single exchange or wire center, and perform a fully distributed allocation of cost and identification of associated revenue in order to quantify funding needs for the areas; ~~or~~

(C) The commission shall adopt reasonable cost proxies that may be used by an eligible telecommunications carrier for this purpose; or

(D)(i)(a)(1) If an eligible telecommunications carrier has not elected to discontinue funding pursuant to subdivision (e)(9)(A) of this section, beginning July 1, 2005, an eligible telecommunications carrier that had been receiving AUSF funding under subdivisions (e)(4)(A) and (e)(4)(B)(i)(a) of this section shall receive AUSF funding as determined by the high-cost transition and revenue shift cap formulas described in subdivisions (e)(6)(D)(ii) and (iii) of this subsection.

(2) The provisions of subdivision (e)(6)(D)(i)(a)(1) of this section are applicable only to eligible telecommunications carriers that were receiving AUSF funding as of January 1, 2005, and to non-tier one eligible telecommunications carriers with less than ten thousand (10,000) access lines as of January 1, 2005.

(b) Beginning July 1, 2005, the AUSF administrator shall ratably:

(1)(A) Reduce the base year AUSF funding by one-fifth (1/5) for the next five (5) years.

(B) The base year AUSF funding is the amount received by an eligible carrier for the twelve months ending June 30, 2005.

(C) Beginning July 1, 2009, the base year AUSF funding shall be replaced by the amount determined in accordance with subdivisions (e)(6)(D)(ii) and (iii) of this section; and

(2) Increase AUSF funding by one-fifth (1/5) of the funding amount determined by subdivisions (e)(6)(D)(ii) and (iii) of this section for the same five-year period.

(ii) The amount of the eligible telecommunications carrier's AUSF funding under the high cost transition formula shall be determined by the AUSF administrator who shall apply the high-cost transition formula as follows:

(a)(1) Subtract two hundred ninety-five dollars ($295.00) per loop from the total annual cost per loop.

(2) The total annual cost per loop is the most recent unseparated annual cost per loop of the eligible telecommunications carrier's study area as defined in 47 C.F.R. §36.621, as it existed on January 1, 2005, and which is used for the purpose of administering and calculating the carrier's eligibility for the federal high cost fund;

(b) Subtract the annual amount per loop received by the eligible carrier from the federal high cost fund from the total annual cost per loop;

(c) If the carrier's weighted average recurring monthly rate for basic residential local exchange telephone service is equal to or less than eleven dollars ($11.00) per month as of July 1, 2005, subtract from the total annual cost per loop the local rate threshold adjustment which is the amount produced by multiplying by twelve (12) the difference between the carrier's weighted average recurring monthly rate for basic residential local exchange telephone service that was in effect on July 1, 2005, and eleven dollars ($11.00); and

(d) Multiply the carrier's total working loops as of December 31 of the preceding year by the balance remaining after making the subtractions under subdivisions (e)(6)(D)(ii)(a), (b) and (c) of this section from the total annual cost per loop.

(iii)(a) If the eligible carrier's base year AUSF funding per loop per year exceeds the high-cost transition fund eligibility per loop per year as determined under subdivision (e)(6)(D)(ii) of this section by an amount greater than one hundred twenty dollars ($120.00) per loop per year, the AUSF administrator shall provide the eligible carrier a revenue shift cap adjustment.

(b)(1) The revenue shift cap shall be determined by dividing the base year AUSF funding per loop by the carrier's average number of working loops for the same twelve-month period.

(2) Base year AUSF funding per loop

is the amount per loop per year that was received by an eligible carrier for the twelve (12) months ending July 1, 2005, and is equal to the total AUSF funding received by an eligible carrier for the twelve (12) months ending July 1, 2005.

(c) The revenue shift cap adjustment shall be equal to the base year AUSF funding per loop per year, less one hundred twenty dollars ($120.00) per loop per year, multiplied by the carrier's number of working loops as of December 31 of the preceding year.

(iv) For each eligible carrier receiving AUSF funding under subdivision (e) (6)(D)(i)(A) of this section, the AUSF administrator shall recalculate and update the high-cost transition fund formula and revenue shift cap each year.

(v) If the high-cost transition formula in subdivision (e)(6)(D)(ii) produces less AUSF support than the eligible telecommunications carrier was receiving as of July 1, 2005, the eligible carrier under subdivision (e)(6)(D)(i)(a) of this section may increase its basic local exchange rates by an amount that will recover the difference between the amount recoverable under the high-cost transition formula and the net receipts from the AUSF as of July 1, 2005.

(7) In calculating revenue requirements only for the purpose of establishing high-cost funding needs from the AUSF, the commission shall not fix depreciation rates. However, the commission may make reasonable adjustments to depreciation expense if an eligible telecommunications carrier's composite depreciation annual accrual rate is greater than the weighted average of composite rates for similar plant and equipment of all other telecommunications providers providing comparable services in the state. In that case, the commission may adjust depreciation expenses of the eligible telecommunications carrier to levels that would not exceed fifteen percent (15%) above a composite accrual rate comparable to the statewide weighted average; and

(8)(A)(i) The commission shall establish by regulation a grant program to make grants available to eligible telecommunications carriers for the extension of facilities to citizens who are not served by wire line services of an eligible telecommunications carrier. Grants may be requested by an eligible telecommunications carrier or citizens who are not served or both.

(ii) The commission shall delegate to a trustee the administration, collection, and distribution of the Extension of Telecommunications Facilities Fund in accordance with the rules and procedures established by the commission. The trustee shall enforce and implement all rules and directives governing the funding, collection, and eligibility for the Extension of

Telecommunications Facilities Fund.

(B)(i) In establishing regulations for the grant program, the commission shall consider demonstrated need, the length of time the citizens have not been served, the households affected, the best use of the funds, and the overall need for extensions throughout the state.

(ii) The commission may require each potential customer to be served by the extension of facilities to pay up to two hundred fifty dollars ($250) of the cost of extending facilities.

(C) The plan shall be funded by customer contributions and by the Extension of Telecommunications Facilities Fund established by subdivision (e)(4)(D) of this section.

(D)(i) The commission shall provide quarterly reports to the Legislative Council. The reports shall include, but shall not be limited to, the number of requests for grants, the number of grants awarded, the amount awarded, and the number of additional customers served.

(ii) The commission shall notify members of the General Assembly of grants made in their districts.

(E) In order to allow time for potential applicants to request grants, no grants shall be awarded for three (3) months after the effective date of the rules establishing the program.; and

(9)(A) A telecommunications carrier receiving funds from the AUSF as of July 1, 2005, may elect to have its payments ratably reduced annually by one-fifth (1/5) of the amount authorized by the AUSF administrator as of July 1, 2005.

(B)(i)(a) Any telecommunications carrier that elects to receive the reduction under subdivision (9)(A) of this section may recover through a surcharge any reduction in its AUSF payments up to the amount authorized by the AUSF administrator as of July 1,2005.

(b) The surcharge shall be on the telecommunications carrier's customer bills over its total customer base which includes commonly controlled local exchange carriers.

(ii) The surcharge shall be in addition to any amount authorized under a rate increase by an electing company under § 23-17-401 and is not a tax.

(c) For any telecommunications carrier that elects to receive the reduction under subdivision (9)(A) of this section, no general rate application or earnings review shall be required to implement the surcharge that may not exceed the amount set under § 23-17-412(i)(l) for any twelve-month period.

(f) On or within thirty (30) days following the fifth anniversary of February 4,

1997, the commission and the AUSF administrator shall complete and deliver a report on the status and performance of the AUSF to the Legislative Council.

(g) The current Universal Telephone Service Fund established pursuant to § 23-17-301 et seq. will continue to exist until the AUSF is funded and operational. At that time any funds remaining in the current fund will be transferred to the AUSF, and the current fund will no longer be operational.

SECTION 2. Arkansas Code § 23-17-405 is amended to read as follows:

23-17-405. Eligible telecommunications carrier.

(a) The incumbent local exchange carrier, its successors and assigns, which owns, maintains, and provides facilities for universal service within a local exchange area on February 4, 1997, shall be the eligible telecommunications carrier within the local exchange area.

(b) Where the incumbent local exchange carrier receives AUSF support, ~~except in areas served by rural telephone companies,~~ the Arkansas Public Service Commission, consistent with 47 U.S.C. § 214(e)(2), after reasonable notice and hearing, may designate other telecommunications providers to be eligible for high-cost support pursuant to § 23-17-404 under the following conditions:

(1)(A) The other telecommunications provider accepts the responsibility to provide service to all customers in an incumbent local exchange carrier's local exchange area using its own facilities or a combination of its own facilities and resale of another carrier's services.

(B) High-cost support under this section will not begin until the telecommunications provider has facilities in place and offers to serve all customers in its service area;

(2) The telecommunications provider may only receive funding for the portion of its facilities that it owns and maintains;

(3) The telecommunications provider will not receive AUSF funding at a level higher than the level of funding received by the incumbent local exchange carrier in the same area;

(4) The telecommunications provider advertises the availability and the charges for the services, using media of general distribution; ~~and~~

(5) The telecommunications provider shall:

(A) Provide a five-year plan demonstrating how high-cost universal service support will be used to improve its coverage, service quality, or capacity throughout the service area for which it seeks designation;

(B) Demonstrate its ability to remain functional in

emergency situations;

(C) Demonstrate that it will satisfy consumer protection and service quality standards;

(D) Offer local usage plans comparable to those offered by the incumbent local exchange carrier in the area for which it seeks designation; and

(E) Acknowledge that it may be required to provide equal access if all other eligible telecommunications carriers in the designated service area relinquish their designations; and

(6) ~~It is determined by the~~ The commission determines that the designation is in the public interest after:

(A) Reviewing the benefits of increased consumer choice and the unique advantages and disadvantages of the competitor's service offering;

(B) Examining the potential for cream-skimming effects in instances where the application seeks designation below the study area level of a rural incumbent local exchange carrier;

(C) Offering local usage plans comparable to those offered by the incumbent local exchange carrier in the area for which it seeks designation; and

(D) Acknowledging that it may be required to provide equal access if all other eligible telecommunications carriers in the designated service area relinquish their designations.

(c) In exchanges or wire centers where the commission has designated more than one (1) eligible telecommunications carrier, the commission shall permit a local exchange carrier to relinquish its designation as an eligible telecommunications carrier, consistent with 47 U.S.C. § 214(e)(4), upon a finding that at least one (1) eligible telecommunications carrier will continue to serve the area.

(d)~~(1) For the entire area served by a rural telephone company, excluding tier one companies, for the purpose of the AUSF and the federal Universal Service Fund, there shall be only one (1) eligible telecommunications carrier which shall be the incumbent local exchange carrier that is a rural telephone company.~~

~~(2) The rural telephone company may elect to waive its right to be the only eligible telecommunications carrier within the local exchange area by filing notice with the commission.~~

~~(3)~~ If there is more than one eligible telecommunications carrier, an eligible telecommunications carrier may petition the commission and be granted relief from designation as an eligible telecommunications carrier.

(e) An eligible telecommunications carrier may use commercial mobile

services to provide universal services.

SECTION 3. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that there is an immediate need for the amendment of the Telecommunications Regulatory Reform Act of 1997 to ensure compliance with federal law and regulations and to continue to encourage growth and competition; that any delay in the effective date of this act could create an undue burden upon Arkansas citizens and could work irreparable harm upon the efficient provision of telecommunications services in the State of Arkansas. Therefore, an emergency is declared to exist and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:

(1) The date of its approval by the Governor;

(2) If the bill is neither approved nor vetoed by the Governor, the expiration of the period of time during which the Governor may veto the bill; or

(3) If the bill is vetoed by the Governor and the veto is overridden, the date the last house overrides the veto."

(a) The General Assembly finds that many two-year college students enroll in one-year certificate programs or to complete courses with no intention of completing a degree and the retention rate from semester-to-semester would best capture this characteristic of two-year colleges. The General Assembly further finds that the improvement of the semester-to-semester retention rate of full-time students would be overlooked when only measuring graduation rates.

(b)(1) Incentive funding for two-year colleges shall be linked to the semester-to-semester retention rates of full-time degree or certificate seeking students.

(2)(A) The multiplier shall be 1.00 for two-year colleges that do not improve their semester-to-semester retention rate.

SECTION 3. (2) The General Assembly further finds that the improvement of the first-to-second year retention rate of full-time students would be overlooked when only measuring graduations rates of universities.

(b) (1) Incentive funding for universities shall be linked to the one-year retention rate of first-time, full-time degree-seeking students.

(b) The funds awarded to the two-year colleges and universities based upon Sections 1 through 3 of this act shall not impact an institution's base funding."

27-50-502. Promulgation of form.

(a)(1) The Department of Arkansas State Police is authorized and directed to promulgate a uniform traffic citation form.

(2) The form so promulgated or a substantially equivalent form shall be used exclusively by all law enforcement officers and agencies in this state in issuing citations for traffic law violations.

(b) Subsection (a) of this section shall not prohibit municipalities from promulgating uniform citation forms for use in enforcement of violations of its municipal code ordinances for offenses other than moving traffic law violations.

SECTION 3. The provisions of this act shall apply to all previously issued citations for traffic law violations.

SECTION 4. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that there is confusion concerning the substance of the uniform traffic citation form; that the confusion has led to the dismissal of charges for traffic law violations; and that this act is immediately necessary to clarify that the uniform citation form may be altered to a substantially equivalent form for the use of law enforcement agencies. Therefore, an emergency is declared to exist and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:

(B)(i) This ratio study shall be based on sales-to-assessment ratios, supplemented with appraisal to assessment ratios as required to meet generally accepted statistical techniques.

(ii) The study shall determine the actual assessment level of real estate as required by law, including the value of agricultural lands that qualify for use and productivity valuation, by classification such as residential, commercial and industrial, agricultural, etc.

(iii) No later than January 31 of every year, all counties shall report, by electronic transmission, sales data to the ~~department~~ office. The ~~department~~ office shall report the preliminary sales-to-assessment ratio studies to the assessor and county judge on or before March 1 of the assessment year.

(2) The ~~department~~ office shall supplement the sales-to-assessment ratio with appraisals as required and report the original combined real property ratios to the assessor and county judge.

(3) In conducting the studies, the ~~department~~ office shall use generally accepted valuation procedures, statistical compilation, and analysis techniques found in the International Association of Assessing Officers' standards on ratio studies.

(b)(1) An annual ratio study for the purpose of determining the average ratio of assessed value to the true and full market or actual value of personal property in each of the several counties of the state also shall be made. This ratio study of personal property shall be based upon a physical examination of the records of each assessor's office to determine the degree of compliance with the criteria as established by the Personal Property Manual.

(2) The personal property original ratio study shall be certified by the ~~department~~ office to the county judge and county assessor of each county by August 1 of each year.

(c)(1) The county assessor shall, on or before August 1 of each year, report to the ~~department~~ office, by total of items and value, the total assessment of the county as made by the assessor.

(e)(1) In addition to the other provisions of this section, whenever the August 1 ratio for the classifications of market value real estate, personal property (business), personal property (auto and other), or agri (agricultural and timber) falls below eighteen percent (18%) or above twenty-two percent (22%) of full fair market value, the county shall be deemed to have failed the ratio study and shall be subject to the corrective actions outlined in subdivision (f) of this section.

(2) Furthermore, when a ratio study determines that the county does not meet the ratio standards found in the International Association of Assessing Officers' standards on ratio studies, the county shall be deemed to have failed the

ratio study and shall be subject to the corrective actions outlined in subdivision (f) of this section.

(3) The ~~department~~ office may conduct a county ratio study, in full or in part, at any time that the ~~department~~ office determines that a county has engaged in inappropriate assessment roll changes or manipulations.

(f)(1)(A) When a county has failed the ratio study, the ~~department~~ office shall direct and supervise a detailed market value and assessment value analysis of the area or class indicating a deficiency in order to determine the political subdivisions and neighborhoods or appraisal methodology, or both, in need of assessment value adjustments.

(B) When appropriate assessment value adjustments are determined for the county, the county shall place the assessment value adjustments on the assessment rolls of the county in a manner that is most equitable for the taxpayers of the county for taxation according to the laws of this state.

(C) The ~~department~~ office and counties employing contracted appraisal services shall bear no additional expense for correcting a failed ratio study if the failure is found to be the fault of the contractor. The contractor shall bear the cost of these additional services.

(2) In the case where a county fails to place the assessment value adjustments on the assessment rolls of the county as directed by the ~~department~~ office, the ~~department~~ office is authorized to notify the disbursing agents of the State of Arkansas to withhold the funds accruing to the county from all sources until the time that the adjustments are made. If the adjustments are not made for one (1) year, the withheld funds shall not be reimbursed to the county and shall be deposited in the State General Government Fund, and withholding shall begin for the following year.

(g) If a county is aggrieved at the findings of the ~~department~~ office, the county may appeal the findings of the ~~department~~ office to the Director of the ~~Assessment Coordination~~ Department of Finance and Administration. The officials of each unit of government affected shall have the right to examine the records of the ~~department~~ office that pertain to the ratio findings or value adjustment order for that unit of government.

(b)(1) In addition to any medical, personal, or other paid leave provided by the employer, a private employer shall grant an employee an unpaid leave of absence to allow the employee to serve as an organ donor or a bone marrow donor if the employee requests a leave of absence in writing.

(2) The length of the leave of absence shall be equal to the time

requested by the employee or ninety days (90), whichever is less.

(3) A private employer may grant a paid or unpaid leave of absence for a length of time greater than ninety days (90).

(c)(1) If a private employer agrees to pay the employee's regular salary or wages during the leave of absence required under subsection (b) of this section, then the private employer is entitled to a credit against the private employer's Arkansas withholding tax liability.

(2)(A) The amount of the credit provided in subdivision (c)(1) of this section shall be equal to twenty-five percent (25%) of the regular salary or wages paid to the employee while the employee was on a leave of absence required under subsection (b) of this section.

(B) However, if the private employer grants the employee a leave of absence greater than ninety (90) days, the credit provided under this subsection (c) shall be limited to the regular salary or wages paid during the first ninety (90) days of the leave of absence.

(3) The credit shall be taken within one (1) year of the date upon which the leave required under subdivision (b) of this section begins.

AMENDMENT NO. 4 TO SENATE BILL NO. 447

Amend SENATE BILL NO. 447 as engrossed,

S3/29/05 (version: 03-29-2005 16:11)::

Delete SECTIONS 1 through 7 entirely and substitute the following:

"SECTION 1. Arkansas Code Title 18, Chapter 11 is amended to add an additional subchapter to read as follows:

18-11-601. Purpose.

The purpose of this subchapter is to encourage owners of land to make land and water areas available to municipal governments for municipal water supply purposes by limiting the liability of landowners toward persons entering on the land and water areas.

18-11-602. Definitions.

As used in this subchapter:

(1) "Land" means real property, roads, water, watercourses, private ways, and buildings, structures, and machinery or equipment when attached to the real property;

(2) "Municipal water supply purpose" includes, but is not limited to, any of the following, separately or in any combination:

(A) Construction or maintenance of a water intake structure;

(B) Maintenance of a water intake source;

(C) Research concerning a water intake source or structure; and

(D) Other activity associated with a water intake source or structure; and

(3) "Owner" means the possessor of a fee interest or a tenant, lessee, occupant, or person in control of the land.

18-11-603. Construction.

Nothing in this subchapter shall be construed to:

(1) Create a duty of care or a basis for liability for injury to persons or property; or

(2) Relieve any person using the land of another for municipal water supply purposes from any obligation that he or she may have in the absence of this subchapter to exercise care in his or her use of the land and in his or her activities on the land or relieve any person from the legal consequences of failure to employ such care.

18-11-604. Duty of care.

Except as specifically provided in § 18-11-607, an owner owes no duty of care to keep the land safe for entry or use by others for municipal water supply purposes or to give any warning of a dangerous condition, use, structure, or activity on the land to persons entering for municipal water supply purposes.

18-11-605. Owner's immunity from liability.

Except as specifically provided in § 18-11-607, an owner who, either directly or indirectly, invites or permits any person to use his or her land for municipal water supply purposes does not:

(1) Extend any assurance that the land is safe for any purpose;

(2) Confer upon the person the legal status of an invitee or licensee to whom a duty of care is owed;

(3) Assume responsibility for or incur liability for any injury to person or property caused by an act or omission of the person; or

(4) Assume responsibility for or incur liability for injury to the person or property caused by any natural or artificial condition, structure, or personal property on the land.

18-11-606. Land leased to municipality.

Unless otherwise agreed to in writing, the provisions of §§ 18-11-604 and 18-11-605 shall be deemed the sole source of the duties and liability of an owner who leased or otherwise provided land to a municipality for municipal water supply purposes.

18-11-607. Exceptions to owner’s immunity.

Nothing in this subchapter limits in any way liability that otherwise exists for malicious, but not mere negligent, failure to guard or warn against an ultra-hazardous condition, structure, personal property, use, or activity actually known to the owner to be dangerous."

"6-20-2503. Bonded debt assistance.

(a) As used in this section:

(1) "Foundation funding" means an amount of money specified by the General Assembly for each school year to be expended by school districts for the provision of an adequate education for each student as that amount is established in § 6-20-2305;

(2) "Local revenue per student" means in each school year ninety-eight percent (98%) of the amount of revenue available, whether or not collected, in a school district solely from the levy of the uniform rate of tax plus seventy-five percent (75%) of the average miscellaneous funds collected in the previous five (5) years or the previous year, whichever is less, divided by the average daily membership of the school district;

(3) "Miscellaneous funds" means those funds received by a local school district from federal forest reserves, federal grazing rights, federal mineral rights, federal impact aid, federal flood control, wildlife refuge funds, severance taxes, funds received by the district in lieu of taxes, and local sales and use taxes dedicated to education pursuant to §§ 26-74-201 et seq., 26-74-301 et seq., 26-75-301 et seq., and 14-164-301 et seq.; and

(4) "State wealth index" means the result of one (1) minus the ratio of local revenue per student divided by the difference between foundation funding and local revenue per student.

(b)(1) In accordance with the requirements and limitations of this section, the state shall provide eligible school districts with financial assistance for the purpose of retiring outstanding bonded indebtedness in existence as of January 1, 2005.

(2) The amount of financial assistance under this section is based on:

(A) The total amount required to satisfy a school district's outstanding bonded indebtedness in existence as of January 1, 2005;

(B) The annual amount due on a fiscal year basis from the school district in accordance with the principal and interest payment schedule in effect and on file with the Department of Education on January 1, 2005, for the outstanding bonded indebtedness identified under subdivision (b)(2)(A) of this section; and

(C) The calculation in subdivision (b)(3)(A) or (b)(3)(B) of this section.

(3)(A) The Commission for Public Academic Facilities and Transportation shall determine the amount of financial assistance for each eligible school district as follows:

(i)(a) For the year that financial assistance under this section will be provided, ascertain the scheduled debt payment on a fiscal year basis from the principal and interest payment schedule in effect and on file with the Department of Education on January 1, 2005, and reduce the amount of the payment by ten percent (10%) except as provided in subdivision (b)(3)(A)(i)(b) of this section.

(b) If a school district can demonstrate to the satisfaction of the commission that all or a portion of the ten percent (10%) reduction in its scheduled debt payment under subdivision (b)(3)(A)(i)(a) of this section can be attributed to the support of academic facilities, then the commission shall reverse all or a portion of the ten percent (10%) reduction by a percentage proportionate to the amount attributable to academic facilities;

(ii) For the year that financial assistance will be provided, divide the scheduled debt payment as adjusted under subdivision (b)(3)(A)(i) by the total assessed valuation of taxable real, personal, and utility property in the school district as shown by the applicable county assessment for the most recent year with the result multiplied by one thousand (1,000);

(iii)(a) Multiply the calculation under subdivision (b)(3)(A)(ii) of this section by a funding factor per average daily membership that will

distribute a total amount of state financial assistance no less than the total amount of funds that would have been distributed during fiscal year 2005 if every school district in the state had received an amount of state financial assistance equal to an amount calculated by applying the debt service funding supplement formula under the Supplemental School District Funding Act of 2003, § 6-20-2401 et seq., during fiscal year 2005 with a funding factor of eighteen dollars and three cents ($18.03).

(b) The funding factor for each fiscal year after fiscal year 2006 shall be equal to the funding factor derived for fiscal year 2006 under subdivision (b)(3)(A)(iii)(a) of this section; and

(iv) Multiply the calculation under subdivision (b)(3)(A)(iii) of this section by the state wealth index.

(B)(i) As used in this subdivision, "mandatory callable bonds" means a bond issue in which all net proceeds from debt service millage used to secure the issuance of that bond must be applied to payment of the issue and cannot be used for any other purposes.

(ii) School districts having mandatory callable bonds shall receive an amount of state financial assistance with regard to the mandatory callable bonds proportionate to the amount of state financial assistance provided under subdivision (b)(3)(A) of this section to school districts that do not have mandatory callable bonds.

(C) As the amount of state financial assistance under this section decreases to correlate with reductions in principal and interest payments and increases in property assessments, the commission shall distribute any savings through the Educational Facilities Partnership Fund Account in accordance with rules promulgated by the commission.

(4)(A) The commission shall determine the amount of state financial assistance for each eligible school district no later than July 15 of each year.

(B) State financial assistance under this section is payable to each eligible school district in two (2) equal installments. The commission shall arrange for the payment of the first installment by August 1 of each year and the second installment by February 1 of each year.

(5) For tracking purposes, the school district shall account for the funds received as state financial assistance under this section as restricted funds and shall account for the funds in accordance with provisions of law, including without limitation, the Arkansas Educational Financial Accounting and Reporting Act of 2004, § 6-20-2201 et seq., and rules established by the commission.

(c)(1)(A) Nothing in this section shall prohibit a school district from refunding bonds that were issued and outstanding as of January 1, 2005. If a school district

qualifies for state financial assistance under this section, the amount of state financial assistance under this section shall not be altered or reduced as a result of refunding the bonds that were issued and outstanding as of January 1, 2005, and the financial assistance shall continue after the refunding based on the principal and interest payment schedule in effect and on file with the Department of Education on January 1, 2005.

(B) The school district shall use the debt service savings, if any, produced by refunding the outstanding bonds as follows:

(i) The annual savings produced by the refunding shall be deposited into a bond refunding savings fund to be used by the school district solely for the new construction of academic facilities or the purchase of academic equipment; and

(ii) Before the date that the refunding bonds are sold at public sale, the school district shall certify to the commission that the yearly debt services saving will be used solely for the purposes described in subdivision (c)(1)(B)(i) of this section.

(2) Nothing in this section shall prohibit a school district from issuing second lien bonds. If a school district qualifies for state financial assistance under this section, the amount of state financial assistance under this section shall not be increased or reduced as a result of the issuance of second lien bonds.

(3) Nothing in this subsection (c) shall prevent the annual adjustment of state financial assistance under this section in accordance with annual variations in the state wealth index and the school district's principal and interest payment schedule in effect and on file with the Department of Education on January 1, 2005.

(d) The state shall not assume any debt of a school district or incur any obligation with regard to a school district's bonded indebtedness by providing the financial assistance described in this section. The school district receiving financial assistance under this section is and will remain independently liable for all outstanding indebtedness.

(e)(1) The commission shall compute the amount of general facilities funding that each school district received or would have received under the Supplemental School District Funding Act of 2003, § 6-20-2401 et seq., during fiscal year 2005.

(2)(A) In addition to the financial assistance provided under subsection (b) of this section, a school district shall receive in accordance with subdivision (e)(2)(B) of this section state financial assistance equal to all or a portion of the general facilities funding that the school district received or would have received under the Supplemental School District Funding Act of 2003, § 6-20-2401 et seq., during fiscal year 2005.

(B) The commission shall phase-out state financial assistance under this subsection (e) over a ten-year period by reducing the amount received by a school district under this subsection (e) after fiscal year 2006 by one-tenth (1/10) in each year of the ten-year period with the savings distributed through the Educational Facilities Partnership Fund Account in accordance with rules promulgated by the commission.

(3) State financial assistance under this section is payable to each eligible school district in two (2) equal installments. The commission shall arrange for the payment of the first installment by August 1 of each year and the second installment by February 1 of each year.

(f)(1) If a school district elected to receive supplement millage incentive funding under the Supplemental School District Funding Act of 2003, § 6-20-2401 et seq., during fiscal year 2005, the commission shall compute the difference between the amount of supplemental millage incentive funding that a school district received in fiscal year 2005 and the amount of debt service funding supplement and general facilities funding that the school district would have received under the Supplemental School District Funding Act of 2003, § 6-20-2401 et seq., in fiscal year 2005.

(2)(A) In addition to the financial assistance provided under subsection (b) of this section, a school district that elected to receive supplement millage incentive funding under the Supplemental School District Funding Act of 2003, § 6-20-2401 et seq., shall receive in accordance with subdivision (f)(2)(B) of this section state financial assistance equal to all or a portion of the amount of supplemental millage incentive funding that exceeded the amount that the school district would have received under debt service funding supplement and general facilities funding under the Supplemental School District Funding Act of 2003, § 6-20-2401 et seq., in fiscal year 2005.

(B) The commission shall phase-out the state financial assistance under this subsection (f) over a ten-year period by reducing the amount received by a school district under this subsection (f) after fiscal year 2006 by one-tenth (1/10) in each year of the ten-year period with the savings distributed through the Educational Facilities Partnership Fund Account in accordance with rules promulgated by the commission.

“ SECTION 9. Arkansas Code 19-5-302(10) concerning the Miscellaneous Agencies Fund Account is amended to read as follows:

(10)(A) Miscellaneous Agencies Fund Account. The Miscellaneous Agencies Fund Account may be used for the state’s membership in regional or national associations, grants to certain organizations, and maintenance, operations, and improvements of appropriation units as may be authorized by the General Assembly.

(B) The Miscellaneous Agencies Fund Account shall consist of:

(i) Those general revenues as may be provided by law;

(ii) Nonrevenue income derived from services provided by the various

agencies and programs funded from the Miscellaneous Agencies Fund Account; and

(iii) Federal reimbursement received on account of eligible expenditures of the various agencies and programs receiving primary support from the Miscellaneous Agencies Fund Account.

~~(C)(i) In the event that the amount of funds estimated to be available for the Miscellaneous Agencies Fund Account is less than the total of the appropriations made from the Miscellaneous Agencies Fund Account, the Chief Fiscal Officer of the State shall determine the amount of each appropriation to be financed after full funding is provided for all national and regional association dues by using the following procedure:~~

~~(a) Determine from each appropriation the lesser of the estimated expenditures for the fiscal year preceding the fiscal year from which the funding level is to be determined and the amount of the appropriation for the fiscal year for which the funding level is to be determined. This result shall be called the "base appropriation";~~

~~(b) From the amount determined in subdivision (10)(C)(i)(a) of this section subtract the amount appropriated for the fiscal year for which the funding level is to be determined. This result shall be called the "improvement level";~~

~~(c) The sum of the amounts determined in (10)(c)(i)(a) of this section shall be subtracted from the estimated amount to be available for the Miscellaneous Agencies Fund Account;~~

~~(d) If the amount estimated to be available for the Miscellaneous Agencies Fund Account is less than the sum of all base appropriations, then the amount of funding to be made available to each appropriation shall be determined by multiplying each appropriation's base appropriation percentage of the sum of all base appropriations by the amount estimated to be available for the Miscellaneous Agencies Fund Account; and~~

~~(e) If the amount estimated to be available for the Miscellaneous Agencies Fund Account is greater than the sum of all base appropriations, each appropriation shall first receive full funding of its base appropriation and then it's proportionate share of the amounts determined in subdivision (10)(C)(i)(b) of this section based upon the total of all improvement levels.~~

~~(ii) Upon completing the procedure in subdivision (10)(C)(i)(a) (d) of this section, the Chief Fiscal Officer of the State shall notify the Legislative Council.~~

~~(iii) However, the Chief Fiscal Officer of the State shall determine for any appropriation authorized for a biennial period the portion of the biennial appropriation that shall be used in the computations as the base appropriation and that portion shall be used as the improvement level.~~

~~(D)(i) The Department of Finance and Administration may upon approval of the Chief Fiscal Officer of the State and the Legislative Council or the Joint Budget Committee transfer any savings that may accrue in any fiscal year in the Miscellaneous Agencies Fund Account to the Department of Rural Services of the Arkansas Rural Development Commission, the Arkansas Science and Technology Authority, the Arkansas Soil and Water Conservation Commission, and the Arkansas Spinal Cord Commission.~~

~~(ii) The transfer is to enable those agencies to fund critical needs of grant and service recipients across the state with the savings from other agencies funded by the Miscellaneous Agencies Fund Account.~~

~~(E)(i) Determining the maximum number of employees and the maximum amount of appropriation and general revenue funding for a state agency each fiscal year is the prerogative of the General Assembly. This is usually accomplished by delineating such maximums in the appropriation act or acts for a state agency and the general revenue allocations authorized for each fund and fund account by amendment to this chapter.~~

~~(ii) The General Assembly has determined that the Department of Finance and Administration may operate more efficiently if some flexibility is provided to the Department of Finance and Administration by authorizing broad powers under this subdivision (10). Therefore, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee as provided by this subdivision (10).~~

~~(iii) The requirement of approval by the Legislative Council or Joint Budget Committee is not a severable part of this section. If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of competent jurisdiction, this entire section is void.~~

(C) If there are not sufficient funds available in the Miscellaneous Agencies Fund Account to support the amounts appropriated from the Miscellaneous Agencies Fund Account, the Chief Fiscal Officer of the State shall determine the amount of moneys to be made available for each of the appropriations made from the Miscellaneous Agencies Fund Account, after having first provided full funding for all national and regional association dues.
