

Thoroughbred Rule 1216 Amendment Summary

This amendment corrects the Lasix exception rule number from 1217, which is incorrect, to 1232, the correct Rule number, and adds the new 24-hour ban prior to post time, prohibiting the administration of any drug except Lasix.

Thoroughbred Rule 1216 Mark Up

1216. No person shall administer, permit or authorize the administration of any drug, narcotic, stimulant, tranquilizer, depressant, local anesthetic, steroids, NSAIDS or any substance which interferes with recognized testing procedures, except as permitted by Rule 1232, in any manner whatsoever, internally or externally, to any horse within 24 hours of the scheduled post time of the race in which the horse is entered to run. The administration of any drugs or chemical substance shall be done at the risk of the person or persons administering, authorizing or permitting the administration, and all such persons shall assume the risk that if the horse tests positive after an analysis by the Racing Commission Chemist, it shall be a violation of Rule 1233, whether the drug or chemical substance was administered before or after 24 hours prior to the scheduled post time.
