~~(B) Any item of material that contains polychlorinated biphenyls at a concentration in excess of fifty (50) parts per million or any new standard promulgated pursuant to applicable federal laws.~~

~~(d) Transactions involving scrap paper, scrap plastic, scrap glass, scrap textiles, or scrap rubber other than whole tires shall be deemed to be arranging for recycling of recyclable materials, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that all of the following criteria were met at the time of the transaction:~~

- ~~(1) The recyclable material met a commercial specification grade;~~
- ~~(2) A market existed for the recyclable material;~~
- ~~(3) A substantial portion of the recyclable material was made available for use as feedstock for the manufacture of a salable new product;~~

~~(4) The recyclable material could have been a replacement or substitute for a virgin raw material, or the product to be made from the recyclable material could have been a replacement or substitute for a product made, in whole or in part, from virgin raw material;~~

~~(5) For transactions occurring ninety (90) days or more after August 13, 2001, the person exercised reasonable care to determine that the facility where the recyclable material was handled, processed, reclaimed, or otherwise managed by another person, i.e., a consuming facility, was in compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with recyclable material; and~~

~~(6) For purposes of this subsection, "reasonable care" shall be determined using criteria that include:~~

~~(A) The price paid in the recycling transaction;~~

~~(B) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with recyclable material; and~~

~~(C)(i) The result of inquiries made to the appropriate federal, state, or local environmental agency regarding the consuming facility's past and current compliance with substantive, not procedural or administrative, provisions of any federal, state, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with the recyclable material.~~

~~(ii) For the purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activity associated with the recyclable materials shall be deemed to be a substantive provision.~~

~~(e)(1) Transactions involving scrap metal shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction the person:~~

~~(A) Met the criteria set forth in subsection (d) of this section with respect to the scrap metal;~~

~~(B) Was in compliance with any applicable regulations or standards regarding the storage, transport, management, or other activities associated with the recycling of scrap metal that the Arkansas Pollution Control and Ecology Commission promulgates subsequent to the enactment of this section and with regard to transactions occurring after the effective date of those regulations or standards; and~~

~~(C) Did not melt the scrap metal prior to the transaction.~~

~~(2) For purposes of subdivision (e)(1)(C) of this section, melting of scrap metal does not include the thermal separation of two (2) or more materials due to differences in their melting points, referred to as "sweating".~~

~~(3) Except for scrap metals that the federal Environmental Protection Agency or the commission excludes from this definition by regulation, for purposes of this subsection, the term "scrap metal" means:~~

~~(A) Bits and pieces of metal parts, such as bars, turnings, rods, sheets, or wire; or~~

~~(B) Metal pieces that may be combined together with bolts or soldering, such as radiators, scrap automobiles, or railroad box cars, which when worn or superfluous can be recycled.~~

~~(f) Transactions involving spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries shall be deemed to be arranging for recycling, if the person who arranged for the transaction by selling recyclable material or otherwise arranging for the recycling of recyclable material can demonstrate by a preponderance of the evidence that at the time of the transaction:~~

~~(1) The person:~~

~~(A) Met the criteria set forth in subsection (d) of this section with respect to the spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries, but did not recover the valuable components of those batteries; and~~

~~(B) With respect to transactions involving lead-acid batteries, was in compliance with applicable federal and Arkansas environmental regulations or standards, and any amendments thereto, regarding the storage, transport, management, or other activities associated with the recycling of spent lead-acid batteries;~~

~~(2) With respect to transactions involving nickel-cadmium batteries, federal and Arkansas environmental regulations or standards were in effect~~

regarding the storage, transport, management, or other activities associated with the recycling of spent nickel-cadmium batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto; or

(3) With respect to transactions involving other spent batteries, federal and Arkansas environmental regulations or standards were in effect regarding the storage, transport, management, or other activities associated with the recycling of those batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto.

(g)(1) The exemptions set forth in subsections (d)--(f) of this section shall not apply if the person:

(A) Had an objectively reasonable basis to believe at the time of the recycling transaction:

(i) That the recyclable material would not be recycled;

(ii) That the recyclable material would be burned as fuel or for energy recovery or incineration; or

(iii) For transactions occurring more than ninety (90) days after August 13, 2001, that the consuming facility was not in compliance with a substantive, not procedural or administrative, provision of any federal, Arkansas, or local environmental law or regulation or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, or other management activities associated with the recyclable material;

(B) Had reason to believe that hazardous substances had been added to the recyclable material for purposes other than processing for recycling; or

(C) Failed to exercise reasonable care with respect to the management and handling of the recyclable material, including adhering to customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances.

(2) For purposes of this subsection, an objectively reasonable basis for belief shall be determined using criteria that include:

(A) The size of the person's business;

(B) Customary industry practices, including customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances;

(C) The price paid in the recycling transaction; and

(D) The ability of the person to detect the nature of the consuming facility's operations concerning its handling, processing, reclamation, or other management activities associated with the recyclable material.

(3) For purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activities associated with recyclable material shall be deemed to be a substantive provision.

(h) Nothing in this section shall be deemed to affect the liability of a person under § 8-7-403(b)(1)(A) or (B).

(i) The commission is authorized to promulgate additional regulations concerning this section.

Arkansas Department of Environmental Quality, 352 Ark. 396, 102 S.W.3d 458 (2003), has raised questions regarding the factual proof required to establish a claim for cost recovery under the Arkansas Remedial Action Trust Fund Act and regarding the retroactivity of the statute. The General Assembly further finds and determines that the doubts raised by the decision in the Brighton case have created substantial uncertainty regarding the enforcement authority of the Arkansas Department of Environmental Quality and the rights and responsibilities of private parties under the Arkansas Remedial Action Trust Fund Act, all of which require urgent resolution. Therefore, an emergency is declared to exist; and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on July 1, 2005, and shall apply retroactively.
