Memorandum

To: County Judges, Collectors and County Clerks

From: Mark Whitmore, AAC Chief Counsel
By: Kevin Liang, AAC Law Clerk

Date: May 13, 2015
Re: Volunteer Fire Department Dues and Act 693 of the 2015 Regular Session

During 2014 and 2015 Rep. Kim Hammer met with the Collectors Association, the County Judges Association and Quorum Court Association about the needs of rural volunteer fire departments in Arkansas. As a result of those meetings the CJAA and AAC legislative packages included HB 1367 an amendment to A.C.A. § 14-20-108--which currently allows a volunteer fire department to request for their fire dues to be placed upon the property tax statements. The amendment allowed the fire department request to the Quorum Court to place the fire dues on the property tax statement to be accompanied by a petition signed by registered voters in lieu of the effort, expense and uncertainty of a government election. HB 1376, Act 693 of the 2015 Regular Session ("Act 693"), was overwhelming adopted by the General Assembly. Below is a discussion of the Act and attached are some documents that outline the anticipated substance of an ordinance adopted under the act and of a petition by a fire department and the registered voters in the fire district. I hope this is of assistance. If you have any questions feel free to contact me, Mark Whitmore, at 501-372-7550 or 501-940-0531.

Discussion**New Alternative to Special Election (Petition)**

One of the major changes Act 693 adds to A.C.A. § 14-20-108 is the option to dispense with the expense, effort and uncertainty of a government conducted election, upon filing of an attested petition with the county clerk and signed by a majority or in excess of the majority of registered voters, as compared to the number of votes cast in the last preceding general election. Furthermore, if the levy of

annual volunteer fire department dues. A.C.A. § 14-20-108(a)(1)(A); A.C.A. § 14-20-108(c)(3). Second, Act 693 specifies dues as “volunteer fire department” dues. A.C.A. § 14-20-108(c). Third, Act 693 changes “serve a geographical area” to “its geographical service area”. A.C.A. § 14-20-108(c)(3)(b)(2). Fourth and finally, Act 693 changes “and signed by” to “signed request”. A.C.A. § 14-20-108(c)(3)(e)(1).

Conclusion

Act 693 not only helps clarify the language in A.C.A. § 14-20-108, it also gives volunteer fire departments an alternative means of obtaining voter approval for the measure to supply to the Quorum Court, without the costs, effort and uncertainty of an election. This will assist many rural fire departments pursue this avenue without the major costs of an election. Also, the Act, like its predecessor the improvement district transparency act of 2011, requires fire departments of all kinds that use the collector to send their dues on the property tax statements to file an annual report with contact information and other vital information to assist in answering citizen inquires.
