Upon motion of Representative Cheatham, **HOUSE JOINT RESOLUTION NO. 1004** was placed back on second reading for the purpose of amendment.

AMENDMENT NO. 1 TO HOUSE JOINT RESOLUTION NO. 1004

Amend **HOUSE JOINT RESOLUTION NO. 1004** as originally introduced:

Page 1, delete Section 1 in its entirety and substitute the following:

"SECTION 1. The maximum lawful rates of interest on bonds issued by governmental units in the State of Arkansas as set forth in various provisions and amendments to the Arkansas Constitution of 1874, including Article 19, § 13, and Amendment Nos. 30, 38, 62, 65, and 78, are removed.

SECTION 2. The maximum lawful rate of interest on loans made by or to governmental units in the State of Arkansas as set forth in Article 19, § 13 of the Arkansas Constitution of 1874 is removed.

SECTION 3. (a) All other loans having a greater rate of interest than seventeen percent (17%) per annum shall be void as to the principal and interest.

(b) The interest rate for contracts in which no rate of interest is agreed upon shall be six percent (6%) per annum.

SECTION 4. (a) The term "bonds" means all bonds, notes, certificates, financing leases, or other interest-bearing instruments or evidences of indebtedness.

(b) The term "governmental unit" means the State of Arkansas; any county, municipality, school district, or other political subdivision of the State of Arkansas; any special assessment or taxing district established under the laws of the State of Arkansas; and any agency, board, commission, or instrumentality of any of the foregoing.

(c) The term "loans made by or to governmental units" means all direct or

indirect advances of funds and moneys that are conditioned on the obligation of a person or entity to repay the funds and moneys pursuant to loan agreements, lease agreements, installment sale agreements, security agreements, notes, or other instruments or documents evidencing the indebtedness and are made by or to governmental units.

(d)(1) The term "other loans" means all direct or indirect advances of funds and moneys that are conditioned on the obligation of a person or entity to repay the funds and money under loan agreements, lease agreements, installment sale agreements, security agreements, notes, or other instruments or documents evidencing the indebtedness.

(2) The term "other loans" shall not mean loans made by or to governmental units.

SECTION 5. This constitutional amendment shall not supersede or invalidate any federal law applicable to loans or interest rates including loans secured by residential real property.

SECTION 6. The ballot title for this amendment shall be:

An amendment to the Arkansas Constitution to remove the constitutional interest rate limits on bonds issued by and loans made by or to governmental units by repealing the interest rate limitations set forth in Article 19, § 13, and Amendment Nos. 30, 38, 62, 65, and 78 of the Arkansas Constitution with respect to such bonds and loans, and to establish that the maximum interest rate for other loans is seventeen percent (17%) per annum.

SECTION 7. Nothing in this amendment shall limit the power of the General Assembly to fix, from time to time, one or more interest rate limits on various types of bonds and loans.

SECTION 8. If this amendment or the application thereof to any person or circumstances is held invalid, the remainder of the amendment and its application to persons or circumstances other than those to which it is held invalid shall not be affected.

SECTION 9. The provisions of this amendment shall be self-executing.

SECTION 10. The provisions of this amendment shall apply to all bonds issued and loans, including other loans made in whole or in part after the effective date of this amendment.

SECTION 11. All provisions of the Constitution of 1874 or amendments in conflict with this amendment relating to limitation of the charging or paying of interest or the limitation on the rate of interest that a governmental unit can pay or be charged on its indebtedness including, but not limited to, provisions of Article 19, § 13, and Amendment Nos. 30, 38, 62, 65, and 78 are repealed to the extent of such conflict."

Upon motion of Representative Ragland, **HOUSE BILL NO. 1278** was placed back on second reading for the purpose of amendment.

AMENDMENT NO. 1 TO HOUSE BILL NO. 1278

Amend **HOUSE BILL NO. 1278** as originally introduced:

Page 1, line 23 after "encourage" insert "energy efficiency"

AND

Page 1, line 24 delete "energy." and substitute the following:

"energy."

SECTION 2. Arkansas Code Title 23, Chapter 3, Subchapter 4 is amended to read as follows:

23-3-401. Title.

This subchapter shall be known and may be cited as the "~~Energy Conservation Endorsement Act of 1977~~" "Energy Conservation Act of 2009".

23-3-402. Legislative findings.

~~The General Assembly finds that the United States is confronted with a severe and very real energy crisis. Simply stated, the demand for fuels has outstripped the available supplies. The President of the United States has established energy conservation as a high-priority national goal and has called on all Americans to participate in and perhaps make sacrifices toward attaining that goal. The General Assembly recognizes that enormous amounts of energy are wasted by consumers of all classes and economic levels due to inadequate insulation of buildings and other inefficiencies in the use of energy. The overriding public interest in the conservation of natural gas and oil, as well as the use of alternative forms of energy, is indisputable.~~

(a) The General Assembly finds that:

(1) The United States and the State of Arkansas confront a severe and worsening energy crisis;

(2) The United States is currently dependent on energy resources that are:

(A) Expensive;

(B) Subject to volatile pricing that disrupts the national economy; and

(C) More difficult to acquire as world energy demands increase significantly;

(3) Longstanding dependence upon foreign energy resources presents a real threat to this nation's economic and energy security; and

(4) The President of the United States has established as a high-

priority national goal a dramatic increase in conservation, energy efficiency, demand-response measures, renewable resources, and improvements to the nation's electric distribution and transmission systems.

(b) The General Assembly recognizes that:

(1) The enhanced development of these sustainable energy resources is in the public interest;

(2) The state's public utility regulatory and ratemaking process should be strengthened to:

(A) Maximize technology and energy resources; and

(B) Contribute to the reduction of economic and security concerns;

(3) Enormous amounts of energy are wasted by consumers of all classes and economic levels due to inadequate insulation of buildings and inefficiencies in the use of energy; and

(4) The overriding public interest in energy efficiency and conservation of energy, as well as in the increased use of alternative forms of energy, is indisputable.

23-3-403. Energy conservation programs and measures defined.

As used in this subchapter, ~~unless the context otherwise requires, "energy conservation programs and measures" may include, but shall not be limited to~~ without limitation:

~~(1) Programs of residential, commercial, or industrial insulation, including measures to facilitate the financing of such insulation;~~

~~(2) Programs which result in the improvement of load factors, contribute to reductions in peak power demands, and promote efficient load management, including the adoption of interruptible service equipment and alternative or additional metering equipment designed to implement new rate structures; and~~

~~(3) Programs which encourage the use of renewable energy technologies or sources, including solar energy, wind power, geothermal energy, biomass conversion, or the energy available from municipal, industrial, silvicultural, or agricultural wastes.~~

(1)(A) An energy efficiency program or measure that reduces the rate at which energy is used by equipment or a process while maintaining or improving at a lower cost the customer's existing level of comfort and end-use functionality.

(B) A reduction in the rate of energy used may be achieved by:

(i) Substituting more advanced technology; or

(ii) Reorganizing the process to reduce waste heat, waste cooling, or energy.

(C) Energy efficiency includes:

(i) A measure taken on the electric public utility's side of the meter or a natural gas public utility's side of the meter to improve efficiency in generation, transmission, and distribution operations, infrastructure, and the business practices of the electric public utility or the natural gas public utility; and

(ii) A program of residential, commercial, or industrial insulation, including measures to facilitate the financing of insulation through the program;

(2) Either of the following:

(A) A demand response program or measure that results in a change in the energy use by an end-use customer from his or her normal consumption pattern in response to:

(i) A change in the price of energy over time; or

(ii) An incentive payment designed to induce lower electric power and natural gas demand and energy use during times:

(a) Of high wholesale market prices;

(b) When system reliability is jeopardized; or

(c) When reductions in peak electric load or energy usage will lower regulated emissions or improve environmental quality; or

(B) A program that:

(i) Improves load factors;

(ii) Contributes to reductions in peak power demand; or

(iii) Promotes efficient load management, including

without limitation the adoption of interruptible service equipment and alternative or additional metering equipment designed to implement new rate structures;

(3) An application of an advanced technology or system to the delivery system of an electric public utility or a natural gas public utility that enables benefits in the areas of:

(A) Energy demand and consumption;

(B) Reliability;

(C) Improved customer service and information;

(D) Increased energy efficiency and demand response;

(E) Improvement in delivery efficiency; and

(F) Voltage control; and

(4) Renewable resources, including without limitation energy that is:

(A) Generated at a facility from solar, wind, geothermal, ocean energy, biomass, landfill gas, or hydroelectric power; and

(B) Available from a municipal, an industrial, a silvicultural, or an agricultural waste.

23-3-404. Conservation a proper utility function.

It shall be considered is a proper and essential function of public utilities an electric public utility or a natural gas public utility regulated by the Arkansas Public Service Commission to engage in energy conservation programs, projects, and practices which that conserve, as well as distribute, electrical energy and supplies of natural gas, oil, and other fuels.

23-3-405. Authority of Arkansas Public Service Commission — Rates and charges.

(a)(1) The Arkansas Public Service Commission is authorized to propose, develop, solicit, approve, require, implement, and monitor programs and measures by utility companies which an electric public utility or a natural gas public utility that cause the companies the electric public utility or the natural gas public utility to incur costs of service and investments which or costs of investment that encourage energy efficiency and conserve, as well as distribute, electrical energy and existing supplies of natural gas, oil, and other fuels energy.

(2)(A) If the commission determines after proper notice and hearing

~~that After proper notice and hearings, the energy conservation programs and measures may be approved and ordered into effect by the commission if it determines they will be beneficial to the ratepayers of such public utilities an electric public utility or a natural gas public utility and to the ~~utilities themselves~~ the public utility, the commission may approve the energy conservation programs and measures and order their implementation.~~

~~(3) In such instances, the commission shall declare that the cost of such conservation measures is a proper cost of providing utility service. At the time any such programs or measures are approved and ordered into effect, the commission shall also order that the affected public utility company be allowed to increase its rates or charges as necessary to recover any costs incurred by the public utility company as a result of its engaging in any such program or measure.~~

~~(B) If the commission orders the implementation of energy conservation programs and measures under subdivision (a)(1) of this section, the commission shall:~~

~~(i) Declare the cost of the energy conservation programs and measures to be a proper cost of providing a public utility service; and~~

~~(ii) At the time the energy conservation programs and measures are approved and ordered into effect, order the affected electric public utility or natural gas public utility to increase its rates or charges as necessary to recover its costs of engaging in energy conservation programs and measures.~~

~~(b) Nothing in this This subchapter shall be construed as limiting or cutting down does not limit the authority of the commission to order, require, promote, or engage in other ~~energy conserving~~ actions or measures for the conservation of energy."~~

refund anticipation check, including making oral statements contradicting any of the information required to be disclosed under this chapter;

(4) Directly or indirectly arrange for any third party to charge an interest, fee, or charge related to a refund anticipation loan or refund anticipation check, other than the refund anticipation loan or refund anticipation check fee imposed by the creditor including without limitation charges for insurance, attorney's fees, other collection costs, or check cashing.

(5) Misrepresent a material fact or condition of a refund anticipation loan or refund anticipation check; and

(6) Fail to process the application for a refund anticipation loan promptly after the client applies for the loan.

4-116-108. Remedies.

(a) A facilitator who violates a provision of this chapter is in violation of The Arkansas Deceptive Trade Practices Act, § 4-88-101 et seq., and a consumer shall have all rights and remedies provided under this law.

(b) A facilitator who fails to comply with any provision of this chapter is liable to the consumer for:

(1) Actual and consequential damages;

(2) Statutory damages of two thousand five hundred dollars (\$2,500);

and

(3) Reasonable attorney's fees and costs."

Upon motion of Representative Webb, **HOUSE BILL NO. 1663** was placed back on second reading for the purpose of amendment.

AMENDMENT NO. 1 TO HOUSE BILL NO. 1663

Amend **HOUSE BILL NO. 1663** as originally introduced:

Delete everything after the enactment clause and substitute the following:

“SECTION 1. Arkansas Code Title 22, Chapter 2, is amended to add an additional subchapter to read as follows:

22-2-201. Legislative findings.

The General Assembly finds that:

(1)(A) Public buildings can be built and renovated using sustainable, energy-efficient methods that save money, reduce negative environmental impacts, improve employee and student performance, and make employees and students

more productive.

(B) The main objectives of sustainable, energy-efficient designs are to:

(i) Avoid resource depletion of energy, water, and raw materials;

(ii) Prevent environmental degradation caused by facilities and infrastructure throughout their life cycle; and

(iii) Create buildings that are livable, comfortable, safe, and productive; and

(2) State-owned buildings and buildings owned by an institution of higher education can be improved by establishing specific performance criteria and goals for sustainable, energy-efficient public buildings that are based on recognized, consensual standards with a scientifically proven basis and a history of successful performance.

22-2-202. Definitions

As used in this subchapter:

(1) "Institution of higher education" means a state-supported university or college;

(2)(A) "Major facility" means a construction project larger than twenty thousand (20,000) gross square feet of occupied or conditioned space.

(B) "Major facility" does not include a transmitter building or a pumping station;

(3) "Major renovation" means a building renovation project that:

(A) Costs more than fifty percent (50%) of its insured value;

(B) Is larger than twenty thousand (20,000) gross square feet of occupied or conditioned space; and

(C) Is funded in whole or in part by the state;

(4) "Public agency" means a state agency, office, officer, board, department, commission, or an institution of higher education; and

(5) "Sustainable, energy efficient public building" means a public building that, by complying with this subchapter, has the most economical energy and water efficiency for that type of building.

22-2-203. The Sustainable Energy-Efficient Buildings Program for Public Agencies.

(a) The Sustainable Energy-Efficient Buildings Program for Public Agencies is established and shall be administered by the Arkansas Building Authority.

(b)(1) The authority shall develop and issue policies and technical guidelines to establish procedures and methods for compliance with the criteria and the

performance standards for a major facility or a major renovation.

(2) The authority shall develop and administer an:

(A) Energy management program for the implementation of energy conservation measures; and

(B) Operation and maintenance program for public agencies.

22-2-204. Standards for a major facility or a major renovation.

(a) The following minimum standards apply to a major facility:

(1) A major facility project of a public agency shall be designed, constructed, and certified to at least thirty percent (30%) greater energy efficiency than the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Standard 90.1-2004, as it existed on January 1, 2009.

(2) Subdivision (a)(1) of this section applies to a major facility project that has not entered the schematic design phase before the effective date of this act.

(3) An exception or a special standard for a specific type of building or building facility that is found in the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Standard 90.1-2004, is included in the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Standard 90.1-2004, under subdivision (a)(1) of this subsection.

(b) A major renovation project of a public agency shall be certified to at least a twenty percent (20%) greater energy efficiency than the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc., Standard 90.1-2004, as it existed on January 1, 2009.

(c) For new construction under either subsection (a) or (b) of this section:

(1) The indoor water system shall be designed and constructed to use at least twenty percent (20%) less potable water than the indoor water use baseline calculated for the building after satisfying the fixture performance requirement, if any, under the Arkansas Plumbing Code; and

(2) Outdoor potable water or harvested groundwater consumption shall use water use efficient landscape materials and irrigation strategies, including without limitation water reuse and recycling, to reduce conventional consumption by at least fifty percent (50%) of the water that would have been consumed otherwise;

(d) If the Arkansas Building Authority determines the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Standard 90.1-2004 is not practicable for a major facility or major renovation, the authority shall determine a practicable alternative standard for the design and construction for that major facility or major renovation.

(e) To verify the performance of a building component or system and ensure that design requirements are met upon completion of construction, building or

system commissioning practices that are tailored to the size and complexity of the building and its system components shall be employed;

(f) To measure and verify a major facility's performance under this section's standards:

(1) A building level owner's meter for electricity, natural gas, fuel oil, and water shall be installed in accordance with the guidelines issued by the United States Department of Energy under Section 103 of the Energy Policy Act of 2005; and

(2)(A) The public agency and the building designers shall:

(i) Compare metered data from the first twelve (12) months of the building's operation with the energy design target; and

(ii) Report the performance results of that comparison to the authority.

(B) If the report under subdivision (f)(2)(A)(i) of this section shows that the building's average energy or water consumption over the one-year period after the date of beneficial occupancy is less than eighty-five percent (85%) of the performance goal established by this section's standards, the designer, the owner public agency, the contractor, the contract manager at risk, and the commissioning agent shall:

(i) Investigate;

(ii) Determine the cause for the failure to achieve this section's performance standards; and

(iii) Recommend corrections or modifications to meet this section's performance standards.

22-2-205. Purchase of a constructed or renovated building.

(a) A public agency shall not purchase a building that:

(1) Did not meet the design and construction standards that were applicable for a comparable building at the time of its construction; or

(2) Had a major renovation that did not meet the standard for energy and water efficiency that was applicable for a comparable building at the time of the major renovation.

(b) This section does not apply to:

(1) The purchase of a building that has historic, architectural, or cultural significance; or

(2) A building that is acquired by devise or gift.

22-2-206. Program to manage energy usage of public agencies.

(a) The Arkansas Building Authority shall:

(1) Develop an energy program to manage energy, water, and other

utility uses for public agencies that will reduce total energy consumption per gross square foot for all state buildings by twenty percent (20%) by 2014 and thirty percent (30%) by 2017 based on energy consumption for the 2007 - 2008 fiscal year; and

(2) Update this program annually.

(b) To implement its plan, the authority shall:

(1) Develop and implement policies, procedures, and standards to ensure that a public agency's purchasing practices:

(A) Improve the efficiency of energy, water, and other utility uses; and

(B) Consider the cost of the product over its economic life;

(2)(A) Adopt and implement building energy design guidelines for public agencies that include without limitation:

(i) Energy-use goals and standards;

(ii) Economic assumptions for life-cycle cost analysis;

and

(iii) Other criteria for building systems and technologies.

(B) The authority shall modify the design criteria for the construction or the renovation of the facilities of a public facility to require the conduct of a life-cycle cost analysis;

(3) Identify and recommend energy conservation maintenance and operating procedures that:

(A) Are designed to reduce energy consumption within the public facility; and

(B) Require no significant expenditure of funds.

(4) Require the maximum interchangeability and compatibility of equipment components when energy management equipment is proposed for any facility of a public agency; and

(5)(A) Develop an energy audit and a procedure for conducting an energy audit.

(B) Within five (5) years after the effective date of this act, the authority shall have completed an energy audit of every public agency.

(C) When conducting an energy audit under subsection (b)(5) of this section, the authority shall identify and recommend any public facility that is suitable for:

(i) Building commissioning to reduce energy consumption within the facility; or

(ii) Installing an energy savings measure under a guaranteed energy savings contract.

(c) The authority may adopt architectural and engineering standards to implement this section.

(d) A public agency shall:

(1) Develop and implement an energy management plan to manage its energy, water, and other utility uses that is consistent with the authority's energy management program developed under this section;

(2) Update its management plan annually, including without limitation strategies for supporting the energy consumption reduction requirements under subsection (a) of this section;

(3) Submit annually by April 1 to the authority a written report of the public agency's utility consumption and costs by fuel;

(4) Carry out the construction and renovation of a facility in a manner that:

(A) Furthers the goals under this section; and

(B) Ensures the use of life-cycle cost analyses and practices to conserve energy, water, and other utilities; and

(5) Implement the authority's recommendations made under subdivision (b)(1) of this section.

22-2-207. Application to historic and unique buildings.

This subchapter does not apply if the implementation of a measure to conserve energy, water, or other utility use conflicts with the requirements for:

(1) A property to be eligible for, nominated to, or entered on the National Register of Historic Places under the National Historic Preservation Act of 1966, P.L. 89-665;

(2) An historic building located within an historic district;

(3) An historic building listed, owned, or under the jurisdiction of an historic properties commission; or

(4) A building that the authority has exempted from this subchapter because of its unique architectural characteristics or usage.

22-2-208. Advisory committee.

(a)(1) The Director of the Arkansas Building Authority shall create a sustainable, energy-efficient building advisory committee composed of:

(A) Representatives from the design and construction industry who are involved in public works contracting;

(B) Persons from public agencies who are responsible for overseeing public works projects or for developing energy efficiency programs and policies; and

(C) Other persons that the director considers to have useful information.

(2) Advisory committee members shall serve at the pleasure of the director.

(b) The committee shall provide advice on the implementation of this subchapter, including without limitation recommendations regarding:

(1) An education and training process for persons who are involved in the implementation of this subchapter;

(2) An ongoing evaluation or feedback process to help the authority to implement this section; and

(3) Water-deficiency requirements and energy-efficiency requirements.

22-2-209. Rules.

(a) The Arkansas Building Authority shall:

(1) Adopt rules for the implementation of operation and maintenance energy conservation measures in a public building; and

(2) Develop or revise the authority's architectural and engineering standards to provide assistance in determining:

(A) Which energy conservation measures are best suited to the unique characteristics of each building; and

(B) The specifications for the energy conservation measures under this subchapter; and

(3) Adopt rules for the development of education and training requirements for the various personnel that may be involved in a major facility or a major renovation under this subchapter.

(b) The authority may adopt:

(1) Rules to implement this subchapter; and

(2) Architectural or engineering standards as needed to implement this section.

22-2-210. Performance review — Report.

(a) The Arkansas Building Authority shall conduct a performance review of the Sustainable Energy-Efficient Buildings Program for Public Agencies that includes at least the following:

(1) An identification of the costs of implementing energy-efficient and water-efficient building standards in the design and construction of a major facility or major renovation;

(2) An identification of the operating savings attributable to the implementation of energy-efficient and water-efficient building standards, including

without limitation savings in energy, water, utility, and maintenance costs;

(3) An identification of any impact on employee productivity from the application of the standards under this subchapter; and

(4) An evaluation of the effectiveness of the application of the standards under this subchapter.

(b) No later than December 1, 2010, and each year thereafter, the authority shall report to the cochairs of the Legislative Council its:

(1) Findings under subsection (a) of this section; and

(2) Recommended changes, if any, in this subchapter's standards."
