"(b)(1) Illuminated roadway signage installed or replaced after the effective date of this subchapter shall be illuminated from within or from above the roadway signage, except when illumination of the roadway signage from within or above is not possible, or would create excessive cost or maintenance issues.

(2) If roadway signage is illuminated with external fixtures:

(A) The external fixtures shall be directed and designed so that a majority of the light falls upon the sign's surface;

(B) The lamp shall not be visible from the roadway; and

(C) The external fixtures do not create glare, light trespass, or excessive amounts of light pollution.

(c)(1) Commercial and advertising roadway signage and devices, including billboards and electronic message centers, installed or replaced after the effective date of this subchapter that are within one-half (1/2) mile of and visible from a highway system:

(A) Shall not prevent the driver of a vehicle from having a clear and unobstructed view of official signs and approaching or merging traffic;

(B) Shall not:

(i) Contain, incorporate, or use an interactive component or medium;

(ii) Interact with drivers or interface with cell phones or another electronic device; or

(iii) Incorporate, use, or emit a sound or noise or an electronic signal or emit smoke, scent, or odor.

(2) If a commercial and advertising roadway sign or device is illuminated with an external fixture:

(A) The external fixture shall be directed and designed so that a majority of the light falls upon the advertisement surface;

(B) The lamp shall not be visible from the roadway; and

(C) The external fixtures does not create glare, light trespass, or excessive amounts of light pollution.

(3) If a commercial and advertising roadway sign or device is an electronic message center:

(A) The commercial and advertising roadway sign or device shall:

(i) Be equipped with a sensor or other device that automatically determines the ambient light conditions and is programmed to automatically dim appropriately;

(ii) Not be of an intensity or brilliance that may cause glare or impair the vision of a driver of a motor vehicle, or otherwise interfere with a driver's operation of a motor vehicle;

(iii) Not contain flashing, scrolling or traveling messages, or intermittent or full motion video;

(iv) Not change intensity or expose its message for less than four (4) seconds; and

(v) Not exceed three-tenths (0.3) footcandle over the ambient light as measured with a footcandle or illuminance meter that can measure to one one-hundredth of a footcandle.

(4) A measurement required under this subsection shall:

(A) Not be made within thirty (30) minutes after sunset or thirty (30) minutes before sunrise;

(B) Be taken from or as close as is practically possible to directly in front of or perpendicular from the center point of the face of the sign from a height of five feet (5') or approximately the same height as a driver's eye level;

(C) Be taken from or as close as is practically possible to a distance from the sign in feet according to the formula: square root of the area of the commercial and advertising roadway sign or device in square feet times one hundred (100);

(D) Be taken with the sign displaying a solid white image or if monochrome a solid image of the sign's color; and

(E) Be taken with the sign on and compared to the ambient light with the sign off.

(5) Under this subsection, a sign is considered visible from the highway system if it or light emitting from it is plainly visible to a driver of a vehicle who is proceeding in a legally designated direction and traveling at the posted speed limit.
