CHAPTER 10

PARTNERSHIP FOR PUBLIC FACILITIES AND INFRASTRUCTURE ACT

Subchapter 1 — General Provisions

22-10-101. Title.

This chapter shall be known and may be cited as the "Partnership for Public Facilities and Infrastructure Act".

22-10-102. Legislative findings.

The General Assembly finds that:

(1) There is a public need for the timely acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, operation, implementation, and installation of public infrastructure and government facilities within the state that serve a public purpose;

(2) The public need for government facilities and public infrastructure may not be satisfied by existing methods of procurement and the funding methods available to state and local government jurisdictions within the state;

(3) There are inadequate resources to develop public infrastructure and government facilities for the benefit of citizens of the state, and there is demonstrated evidence that public-private partnerships can promote the timely and cost-efficient development of public infrastructure and governmental facilities, provide alternative and innovative funding sources to governmental entities, and allow governmental entities to leverage and supplement the developmental cost of the public infrastructure or governmental facility, through private funding and participation by the private sector in governmental incentive and tax programs that are not otherwise available to governmental entities; and

(4) The necessity exists for authorizing the formation of public-private partnerships that may result in the ability to develop public infrastructure and governmental facility private projects in a more timely and cost-efficient manner, thereby resulting in increased benefits to the public safety and welfare of the

citizens of the state and substantial cost benefits to the governmental entities and the public.

(a) This chapter shall be liberally construed to effectuate its purpose.

(b)(1) Except as limited by the Arkansas Constitution, this chapter exclusively governs the manner and procedures by which a qualifying project may be developed by and between a public entity and a private entity.

(2) If this chapter conflicts with any other state law, then this chapter governs with respect to the manner and procedures by which a qualifying project may be developed by and between a public entity and a private entity.

Subchapter 2 — Proposals for Qualifying Projects

22-10-201. Requests for proposals.

(a)(1) A public entity considering the development of a qualifying project shall prepare and publish a request for proposals.

(2)(A) The public entity may specify a period of time during which responses to the request for proposals may be submitted by private entities.

(B) However, the time allowed for responses to a request for proposals under this chapter shall be at least sixty (60) days from the date the request for proposals is published.

(b)(1) If a proposed qualifying project may materially affect the governmental operations of another public entity, then the public entity proposing the qualifying project shall provide written notice to each potentially affected public entity before the request for proposals is published.

(2) If the public entity and the other affected public entities agree to pursue a qualifying project, the public entities may jointly issue the request for proposals and undertake the qualifying project.

(e)(1) A public entity is not required to determine or select the qualified respondent based on the lowest project development cost or life cycle cost submitted by a private entity.

(2) However, a public entity may consider cost as one (1) factor in evaluating the submitted proposals and selecting the qualified respondent.

(f) A public entity may:

(1) Reject all proposals submitted in response to a request for proposals;

(2) Amend or modify the public entity's request for proposals;

(3) Publish an amended request for proposals; and
