"8-3-203. State plan preferred – State plan dependent on federal emission guidelines.

(a)(1) This subchapter does not require the Arkansas Department of Environmental Quality to develop a state plan to regulate carbon dioxide emissions from existing fossil-fuel-fired electric generating units under Section 111(d) of the Clean Air Act, 42 U.S.C. § 7411.

(2) However, submission of a state plan is the preferred method of compliance with federal emission guidelines.

(b)(1) Notwithstanding approval by the Legislative Council of submission of a state plan to the United States Environmental Protection Agency or submission by the Governor of a state plan under § 8-3-207, further action by a state agency to implement or enforce a final, approved state plan is dependent upon the final adoption of the federal emission guidelines.

(2) If the federal emission guidelines are not adopted or are adopted and subsequently suspended or held to be contrary to law, a state agency shall suspend or terminate, as appropriate, further action to implement or enforce the state plan.

8-3-204. Appeal of state plan — Adjudicatory process.

(a) If the Arkansas Department of Environmental Quality proposes to finalize a state plan submittal for review and approval by the United States Environmental Protection Agency, the department shall comply with the procedural requirements for notice and public comment specified in § 8-4-317.

(b)(1) Only a person that submits comments on the record during the public comment period has standing to appeal the final decision of the department to the Arkansas Pollution Control and Ecology Commission upon written application made within thirty (30) days after the service of notice made under § 8-4-317(b)(2)(A).

8-3-205. Assessing impacts of state plan.

(a) Before preparing a petition to initiate rulemaking for the development of regulations implementing a state plan for regulating carbon dioxide emissions from covered electric generating units, the Arkansas Department of Environmental Quality shall prepare a report that takes into account the factors specified in § 8-4-312 and the Clean Air Act, 42 U.S.C. § 7401 et seq., as applicable.

(b)(1) In addition to the report specified in subsection (a) of this section, the Arkansas Department of Environmental Quality shall coordinate with the Arkansas Public Service Commission in the preparation of a report that assesses the effects of the state plan on the electric power sector, including without limitation:

(A) The ability of the state to provide affordable electricity through diversified sources of electricity generation;

(B) The type and amount of electric generating capacity within the state that is likely to withdraw from the state or switch to another fuel;

(C) Stranded investment in electric generating and transmission capacity and other assets and infrastructure;

(D) Potential risks to electric reliability within the state, including without limitation, resource adequacy risks, transmission constraints, and natural gas supply and transmission adequacy; and

(E)(i) The amount by which retail electricity and any replacement fuel prices within the state are forecast to increase.

(ii) A rate impact assessment shall consider nonfuel costs, including generation, transmission, distribution, surcharges for renewable energy and energy efficiency, capital investment, upgrades to meet environmental requirements, utility profits, financing costs for new investments, unappreciated capital assets retired prematurely, and other nonfuel costs and surcharges;

(2) The department shall further coordinate with the Arkansas Economic Development Commission, in the preparation of a report that assesses the effects of the state plan on the electricity consumers within the state, including without limitation:

(A) Disproportionate impacts of electricity and other replacement energy price increases on middle-income and lower-income households;

(B) Employment within the state, including without limitation direct and indirect employment effects and jobs potentially lost within affected sectors of the state's economy;
