## About Us

The Commonwealth Learning Online Institute (CLOI) is a non-profit organization that has been providing professional learning to teachers for over twenty years.

CLOI designs in-depth courses that combine rigorous instruction and the Common Core State Standards with technology through an online professional learning library.

### Teaching the Common Core State Standards in ELA

How will the required ELA standards be translated to result in CCRS? This will be accomplished through the utilization of effective instructional strategies and the combination of current technology with an in-depth understanding of the CCSS.

CLOI provides educators with an all-inclusive online learning opportunity that improves teacher effectiveness, streamlines implementation of CCSS, and increases the percentage of college and career ready students. *CLOI is a Common Core Endorsing Partner.*
