~~(g) "Sales"~~ "Receipts" means all gross receipts of the taxpayer not allocated under paragraphs 4 through 8 of this article and that are received from transactions and activity in the regular course of the taxpayer's trade or business; except that receipts of a taxpayer from hedging

transactions and from the maturity, redemption, sale, exchange, loan or other disposition of cash or securities shall be excluded;

For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if (1) in that state ~~he~~ the taxpayer is subject to a net income tax, a franchise tax measured by net income, ~~a franchise tax for the privilege of doing business, or a corporate stock tax, or~~ (2) ~~that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not~~ or any other tax measured by income or other measure of business activity in the state and the taxpayer files the requisite tax return in the other state, or (2) the state has no net income tax, franchise tax measured by net income, or any other tax measured by income or other measure of business activity in the state as provided in this section and the taxpayer has activities in the other state that exceed those protected by 15 U.S.C. §§ 381 – 384.

4. Rents and royalties from real or tangible personal property, capital gains, interest, dividends, or patent or copyright royalties, to the extent that they constitute ~~nonbusiness~~ nonapportionable income, shall be allocated as provided in paragraphs 5 through 8 of this article.

5.(a) Net rents and royalties from real property located in this

state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state: (1) if and to the extent that the property is utilized in this state, or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

6.(a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if (1) the property had a situs in this state at the time of the sale, or (2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in

the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

9. All ~~business~~ apportionable income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus ~~double~~ two (2) times the ~~sales~~ receipts factor, and the denominator of which is four (4).

10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

(c) Some of the service is performed in ~~the~~ this state and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in ~~the~~ this state, or (2) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

15. The ~~sales~~ receipts factor is a fraction, the numerator of which is the total ~~sales~~ receipts of the taxpayer in this state during the tax period, and the denominator of which is the total ~~sales~~ receipts of the taxpayer everywhere during the tax period.

16. ~~Sales~~ Receipts from the sale of tangible personal property are in this state if:

(1) In the case of sale, rental, lease, or license of real property, if and to the extent the property is located in this state;

(2) In the case of rental, lease, or license of tangible personal property, if and to the extent the property is located in this state;

(3) In the case of sale of a service, if and to the extent the service is delivered to a location in this state; and

(4) In the case of intangible property:

(A) That is rented, leased, or licensed, if and to the extent the property is used in this state, provided that intangible property utilized in marketing a good or service to a consumer is used in this state if that good or service is purchased by a consumer who is in this state; and

(B) That is sold, if and to the extent the property is used in this state, provided that:

(i) A contract right, government license, or similar intangible property that authorizes the holder to conduct a business activity in a specific geographic area is used in this state if the geographic area includes all or part of this state;

(ii) Receipts from intangible property sales that are contingent on the productivity, use, or disposition of the intangible property shall be treated as receipts from the rental, lease, or licensing of such intangible property under subsection 17(a)(4)(B)(i) of this article; and

(iii) All other receipts from a sale of intangible property shall be excluded from the numerator and denominator of the receipts factor.

(b) If the state or states of assignment under subsection 17(a) of this article cannot be determined, the state or states of assignment shall be reasonably approximated.

(c) If the taxpayer is not taxable in a state to which a receipt is assigned under subsection 17(a) or subsection 17(b) of this article, or if the state of assignment cannot be determined under subsection 17(a) of this article or reasonably approximated under subsection 17(b) of this article, such receipt shall be excluded from the denominator of the receipts factor.

(d) The Director of the Department of Finance and Administration may prescribe regulations as necessary or appropriate to carry

out the purposes of this article.

~~(d)~~ (4) The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(b)(1) If the allocation and apportionment provisions of this article do not fairly represent the extent of business activity in this state of taxpayers engaged in a particular industry or in a particular transaction or activity, the director may, in addition to the authority provided in subsection 18(a) of this article, establish appropriate rules or regulations for determining alternative allocation and apportionment methods for such taxpayers.

(2) A regulation adopted pursuant to this subsection 18(b) shall be applied uniformly, except that with respect to any taxpayer to whom such regulation applies, the taxpayer may petition for, or the director may require, adjustment pursuant to subsection 18(a) of this article.

(e) Notwithstanding subsection 18(d) of this article, if the director demonstrates that in any two (2) of the prior five (5) tax years, the taxpayer had used an allocation or apportionment method at variance with its allocation or apportionment method or methods used for such other tax years, then the director shall not bear the burden of proof in imposing a different method pursuant to subsection 18(a) of this article.

(f) If the director requires a different method pursuant to subsection 18(a) of this article to effectuate an equitable allocation and apportionment of the taxpayer's income, the director may not impose any civil or criminal penalty with reference to the tax due that is attributable to the taxpayer's reasonable reliance solely on the allocation and apportionment provisions of this article.

(g) A taxpayer that has received written permission from the director to use a reasonable method to effectuate an equitable allocation and apportionment of the taxpayer's income shall not have that permission revoked with respect to transactions and activities that have already occurred unless there has been a material change in, or a material misrepresentation of, the facts provided by the taxpayer upon which the director reasonably relied.
