(C) Within the sole discretion of the Insurance Commissioner, a national bank, state bank, or trust company that falls short of the aforementioned monetary capital requirements can nevertheless be approved as a custodian if its parent bank holding company has a substantial net worth and issues a guarantee or letter of indemnification for all of the obligations of its subsidiary custodian.

(D) Securities broker dealers may be a custodian if :

(i) Approved by the Insurance Commissioner; and

(ii) It meets the requirements of Arkansas Code § 23-69-134 and the definition of "securities broker-dealer" as contained herein;

(5) "Direct participant" means a bank or other institution:

(A) That maintains an account in its name in a clearing corporation; and

(B) Through which an insurance company participates in a clearing corporation;

(6) "Federal Reserve book-entry system" shall mean:

(A) The computerized systems sponsored by the United States Department of the Treasury and certain agencies and instrumentalities of the United States for holding and transferring securities of the United States government; and

Authority. Arkansas Code §§ 23-61-108, 23-63-601, 23-69-134.

23 CAR § 13-104. Terms not mutually exclusive.

The terms defined in 23 CAR § 13-103 shall not be interpreted to be mutually exclusive.

Example 1: As regards clearing corporations, an insurer may be a "direct participant" with a clearing corporation. In all other instances the insurer must use a "custodian" in order to gain access to a clearing corporation. If the insurer uses a bank as a "custodian", that bank might be a "direct participant" with a clearing corporation. Thus, the bank meets two definitions, "custodian" and "direct participant". Similarly the "custodian" bank might not be a "direct participant" with a clearing institution, and therefore, to participate in a clearing corporation, must use the services of an "agent" which "agent" maintains an account with a clearing corporation and thus the "agent" also meets the definition of "direct participant".

Example 2: As regards the use of the Federal Reserve book-entry system, an insurer in all cases will utilize a "custodian". The "custodian"

bank might also be a "member bank" and no "agent" should be necessary. If the "custodian" bank is not a "member bank" then the "custodian" bank could use the services of another bank which is a "member bank" to utilize the Federal Reserve book-entry system. Such a "member bank" would also be an "agent" as defined in 23 CAR § 13-103.

Authority. Arkansas Code §§ 23-61-108, 23-63-601, 23-69-134.

23 CAR § 13-105. Use of book-entry systems.

(a) With the prior approval of the Insurance Commissioner, an insurer may deposit within or outside this state or arrange for the deposit within or outside this state of securities held in or purchased for its general account and its separate accounts in a clearing corporation or a securities broker-dealer which is registered with the United States Securities and Exchange Commission or in the Federal Reserve book-entry system.

(b) When securities are deposited with a clearing corporation or securities broker-dealer, certificates representing securities of the same class of the same issuer may be merged and held in bulk in the name of the nominee of such clearing corporation or securities broker-dealer with any other securities deposited with such clearing corporation or securities broker-dealer by any person, regardless of the ownership of such securities, and certificates representing securities of small denominations may be merged into one (1) or more certificates of larger denominations.

(c) The records of any custodian through which an insurer holds securities in the Federal Reserve book-entry system, in a clearing corporation, or by a securities broker-dealer, shall at all times show that such securities are held for such insurer and for which accounts thereof.

(d) Ownership of, and other interests in, such securities may be transferred by bookkeeping entry on the books of such clearing corporation or securities broker-dealer

or in the Federal Reserve book-entry system without, in either case, physical delivery of certificates representing such securities.

Authority. Arkansas Code §§ 23-61-108, 23-63-601, 23-69-134.

23 CAR § 13-106. Deposits of securities.

(a) Securities held in book-entry systems may be used for purposes of deposits required by statute or arising from voluntary agreement with the Insurance Commissioner, provided that all such deposits must be placed through an approved custodian located in Pulaski County, Arkansas.

(b)(1) Securities deposited with a clearing corporation or securities broker-dealer or held in the Federal Reserve book-entry system and used to meet the deposit requirements contemplated in this section shall be under the control of the commissioner and shall not be withdrawn by the insurer without the approval of the commissioner.

(2) Any insurer holding securities in such manner shall provide to the commissioner evidence issued by its custodian through which such insurer has deposited such securities in a clearing corporation or securities broker-dealer or through which such securities are held in the Federal Reserve book-entry system in order to establish that the:

(A) Securities are actually recorded in an account in the name of the custodian; and

(B) The records of the custodian reflect that such securities are held subject to the order of the commissioner.

(c) The custodian may make use of an agent in placing assets into:

(1) The Federal Reserve book-entry system;
