8. Feedback Solicited From Schools in the Site Visits

Comments to Legislature

During the site visits, BLR staff asked school leaders to share general comments to bring back to the Legislature. Three often-mentioned concerns during the site visits were 1) the micro-management of the minutes of the day, 2) transportation funding, and 3) the use of NSLA funding. These and others are grouped by the following topics: 1) staffing, 2) NSLA usage, 3) school day, 4) legislation, 5) funding, 6) testing, 7) teachers, 8) special education, 9) science as a new benchmark exam, 10) ACSIP, and 11) miscellaneous.

Staffing

- Leadership development has not been an issue. Several teachers are in the UCA leadership training for principals.
- There is a big problem finding teachers.
- Each district should have a health coordinator (like other states), and the legislature should provide funding for this position.
- Due to the merger the district had to send several administrators for certification - principals & curriculum coordinators.
- Leadership development has not been an issue in the district in recent years.
- Duty-free lunch is a problem. "AEA has teachers living like lawyers."
- Because so much is now required to be provided through computerized applications (i.e., finance, demographics), the skill level of school secretaries and demands on their time are very high. The demands on the time of secretaries and other office personnel have outstripped the supply. Schools this size need at least a receptionist and an office manager to handle all the phone calls and paperwork. The expectations have risen but not the number of classified personnel standards or funding for them. The principal would be a stronger instructional leader if there were more office support.

NSLA Usage

- NSLA has been used for 3 literacy coaches and 1 nurse for each of 7 schools.
- NSLA is used for personnel & supplies.
- NSLA reported to be OK. There was a fund balance last year. NSLA used for academic coaches, nurses, and class size reduction.
- Need more flexibility in use of NSLA funding.

School Day

- Need to lengthen school day or school year or look at revising curriculum requirements.
- Do not legislate minutes of the day.
- There should be consistent periods for all classes.
- The legislature should not micro-manage the minutes of the school day (e.g., PAM requirements).
- Time during school day is an issue.
- Length of school day or school year is a concern.

Legislation - Funding

- Need more practitioner input into legislation as it's developed.
- Do not create mandates because they limit the use of federal funding.
- Let districts determine professional development needs at the school/district level.
- Need to be mindful of impact of legislation.
- Need to review facilities requirements.
- Need more input from educators in the development of education policy.

Funding

- Funding for summer school is a concern. Remediation should be provided during the summer.
- The school is very isolated and consequently needs additional funds for problems associated with isolated districts.
- Need appropriate COLA.
- Distance learning fees to schools should be covered by state.
- Transportation - 9 routes and costs are a concern.
- Unfunded mandates – cover start-up costs but not the life of a program.
- ABC pre-K partnership funds need to be under ADE instead of DHS.
- Need categorical funding for transportation.
- Need to fund the legislation passed.

Testing

- Testing – need to look a format of end-of-course exams and testing programs (e.g., ACT) and ensure they are compatible.
- The principal plans to explore more formative assessment options.
- Target testing is done through the co-op and is satisfactory.
- Target testing is done through the co-op, but they will be using this less in the future due to the time target testing takes, especially in literacy.
- Formative testing - Co-op target testing is satisfactory.
- Use Target testing for formative assessment.
- Need more equality in test format. Need more opportunity to take the tests.

Teachers

- Quality of teacher preparation - they are very satisfied with recent hires, and did not see difference between private verses public schools, but were not very familiar with private
- Institutions - no leadership development being offered.
- Teacher licensure is too restrictive.
- Limited hires have been satisfactory. Superintendent & principal reported that teachers are increasingly more prepared to teach the classes that they offer.
- They have hired a lot of teachers with alternative certificates. Many have been excellent teachers but a problem is that some leave in a short time for better paying jobs.
- Teachers need better training in use of data.

Special Education

- There was a licensure problem with a special education teacher. The teacher had a 2nd-year waiver of internship and five years of teaching experience in New York, but now she is unable to teach special education without additional coursework.
- The district's limited hires have been satisfactory. The district reported a shortage of teachers especially special education.

Science as a New Benchmark Exam

- Middle school certification is a problem.
- No science lab. A facility is needed.
- They have science manipulatives.
- Science labs are 30 years old and need to be replaced. Proceeds from QZAB bonds will be used to pay for science lab updates.
- They have no science equipment, so they need all items.
- Science Equipment - science has not been emphasized but will need equipment when it is required.
- No science lab. Need all equipment, including microscopes. Would like a portable planetarium to share with other schools in co-op area.
- Would like a formal science lab.
- Made science labs a part of the district facilities master plan. Currently, there are no science labs. Will need in-depth science training for teachers.
- They have new science tables and some equipment, but need microscopes.
- No science lab. Would need all lab equipment.
- Adequate science lab but need almost all equipment. Equipment is old and lacking.
- Lab is up-to-date. Consumables are purchased on a 9 week basis.
- Began renovating science labs approximately 4 years ago.
- They have no science equipment so they need all items.

ACSIP

- Concerned about lack of coordination between ACSIP and APSCN.
- Need to link ACSIP to professional development and technology requests.
- ACSIP plans make schools accountable.
- ACSIP - good accountability tool but not useful for instructional programs.
- Use ACSIP plan to make professional development uniform
